

Get **READY™** with The Avive Connect AED®

With today's heightened focus on being prepared, now is the ideal time to make sure you feel ready to respond in an emergency. Equip your business with an Automated External Defibrillator (AED) from Cintas and feel better prepared to act quickly in the event of sudden cardiac arrest (SCA) — the number one killer in the workplace.

FOR A LOW MONTHLY COST, YOU RECEIVE:

- Monthly service inspections
- Barcoded record-keeping
- Free Pad replacement
- Free software updates
- REALConnect™, powered by Avive

HIGH-RESOLUTION TOUCHSCREEN

- User-friendly design with clear audio and video prompts helps remove intimidation in a time of need

WI-FI, CELLULAR, & GPS

- Advanced connectivity enables 911 integration, remote program visibility, real-time notifications, software updates, and more.

RECHARGEABLE BATTERY

- The only AED with a built-in rechargeable battery. Avoid hundreds of dollars in battery replacement expenses and eliminate hassle to stay ready.

QUICK DATA RETRIEVAL

- Scan a QR code to access post-use incident data from the Avive Connect AED immediately after powering off. Quickly share the patient's full incident report with first responders and physicians

INTEGRATED PEDIATRIC RESCUE

- The universal design of the electrodes gives rescuers a single solution for adults and children experiencing SCA. Respond to adults and children with the same set of pads. Simply press the Child button to switch to Child Mode.

911 ALERT TECHNOLOGY

- AviveQuickRescue™ feature automatically contacts 911 when your AED is in use.

Customer is solely responsible for conducting its own risk or hazard analysis, for obtaining regulatory guidance, and for choosing the type and number of AEDs needed and the placement of those AEDs at Customer's facilities. Any services provided by Cintas are limited to those explicitly contracted for by Customer. If Customer has entered into a service or maintenance agreement with Cintas, Customer is responsible for notifying Cintas of any faults, alarms, or indications that the AED is not functioning properly between Cintas's periodic service or maintenance visits. Customer is responsible for ensuring compliance with all applicable laws and, if necessary, must obtain a prescription for the AEDs, ensure the AEDs are subject to medical oversight, and take all other necessary steps to comply with applicable law. Cintas is not a health-care provider and does not issue prescriptions, provide medical oversight, or provide other related healthcare or medical services. Rather, if explicitly contracted for by Customer, Customer receives access to a third-party who can provide a prescription for the AEDs, provide medical oversight, register the AEDs with local EMS, and provide Customer access to the third-party's online software portal.
