

COATINGS SOLUTIONS

FOR EDUCATIONAL FACILITIES

A LEADER IN INNOVATION

PPG is recognized and respected around the world as a global coatings leader, providing technologically advanced solutions to meet even the most difficult coatings challenges.

From developing a revolutionary coating process for the automotive industry, to providing durable and lightweight protective aircraft coatings, to coloring electronic equipment and consumer goods, to safely lining food packaging, PPG is there to *Protect and Beautify the World*.

MANUFACTURING EXCELLENCE

We leverage innovation and technology from across our global businesses to help our customers achieve successful outcomes.

We have exterior products that utilize a UV-protection coating from our automotive coatings to help color last, and other products that leverage rust-resistant technology from marine coatings for a lasting finish.

We also share technology developed to endure a 100-mph hockey puck to make some of our residential paints durable.

Our relentless commitment to the sharing of technological advancements and operational best practices enables us to deliver an industry-leading product and service portfolio. And because we focus on painting professionals, we can provide the service, expertise, and product solutions to turn your toughest challenges into simpler tasks.

INTERIOR DURABILITY

Education facilities are busy spaces that require durable protection to maintain the interior aesthetic. Stairwells, hallways, lockers, classrooms, cafeterias, gyms – no place is off-limits to the wear and tear that can result from high traffic, frequent cleaning, abrasion, and corrosion. From halls and walls to doors and floors, PPG offers an array of high quality, durable products that will stand up to the daily pounding, help you to extend your repaint cycle, and keep you on budget.

INTERIOR DURABILITY

ALL PPG INTERIOR PRODUCTS ARE LOW VOC AND LOW ODOR, ENABLING A QUICK RETURN TO SERVICE.

SPEEDHIDE® PRO EV ZERO INTERIOR

- Good Hiding & Coverage
- Excellent Uniformity
- Zero VOC*

SPEEDHIDE® ZERO INTERIOR

- Resists mold & mildew on the dry paint film
- Good hiding, coverage & touch-up
- Zero VOC* & excellent uniformity

PURE PERFORMANCE® INTERIOR

- Anti-microbial coating - resists mold & mildew
- Excellent flow & leveling
- Zero VOC* with very good hiding

*Colorants added to this base paint may increase VOC level significantly depending on color choice.

INTERIOR DURABILITY

PITT-GLAZE® WB1

FOR EXCELLENT PROTECTION AND SERVICE LIFE IN HIGH-TRAFFIC AREAS

This durable, water-borne acrylic epoxy product delivers a washable, stain-, abrasion-, and mildew-resistant finish that provides long-lasting protection against the wear and tear from moisture penetration, frequent cleaning, corrosion and high traffic.

KEY FEATURES

- Single component, water-based formula
- Extremely long pot life, no mixing or measuring
- Low odor and less than 100g/L VOC

EXTERIOR PROTECTION

Building exteriors are constantly exposed to the elements, which make it a challenge to protect them and keep them looking good for multiple seasons. PPG designed its exterior line-up to deliver performance, protection, and beauty across all substrates and in all climates. Whatever your repaint cycle and budget goals are, our experienced team of paint professionals will work with you to understand your exact needs and create a customized, written specification that ensures you have the right product for the job. From your roof, to your exterior walls, to your parking lot, PPG will keep you protected.

EXTERIOR PROTECTION

ALL PPG EXTERIOR PAINT PRODUCTS ARE 100% ACRYLIC LATEX AND CAN BE APPLIED IN TEMPERATURES AS LOW AS 35°F.

SPEEDHIDE® EXTERIOR

- Excellent adhesion
- Good UV & weathering resistance
- Mildew resistant on the dry paint film

SUN PROOF® EXTERIOR

- Provides a tough, durable mildew resistant coating
- Great dirt & flash rust resistance
- Great adhesion to a variety of surfaces

ACRI-SHIELD® MAX EXTERIOR

- Urethane modified for enhanced durability
- Delivers exceptional hide & coverage
- Early moisture resistance

EXTERIOR PROTECTION

PERMA-CRETE® MASONRY COATINGS

MEETS THE DEMANDS OF AN UNPRECEDENTED ARRAY OF SURFACE CONDITIONS.

We understand that time constraints, budget requirements and tough substrate conditions can present complications on job sites. The *Perma-Crete* Masonry Coatings line can help you overcome these obstacles with confidence.

Our full line of masonry coatings includes fillers, sealers, primers, elastomerics, textured coatings topcoats (vertical above-grade) and topcoats (horizontal capable).

PPG SPECIALTY SOLUTIONS

PPG offers a variety of problem-solving specialty products with unique benefits, including:

- Low VOC, fast drying trim door & cabinet interior/exterior paint for quick return to service
- Anti-viral & anti-bacterial interior paint provides an extra layer of protection
- Wall Damage Solutions
- Renovation Solutions
- Graffiti Removal Solutions

PPG SPECIALTY SOLUTIONS

BREAK-THROUGH!® LOW VOC TRIM, DOOR & CABINET PAINT

Break-Through! is an advanced interior/exterior paint with industry-leading dry time and outstanding early block resistance, making it the perfect solution for any Trim, Door, & Cabinet project.

KEY FEATURES

- Quick Dry: dries to touch in 15-20 minutes to reduce down time
- Block resistance: Provides tack-free film ideal for doors, windows, cabinets and shelving to stand up to the daily use
- Recoat in as little as 1 hour

PPG SPECIALTY SOLUTIONS

PPG COPPER ARMOR™ ANTI-VIRAL & ANTI-BACTERIAL INTERIOR PAINT

PPG *Copper Armor* with CORNING® GUARDIANT® technology is an interior paint that kills 99.9% of Viruses and Bacteria* on the painted surface. This product provides excellent paint characteristics such as durability and hide, while continuously killing viruses and bacteria for up to 5 years**.

KEY FEATURES

- Kills 99.9% of Viruses & Bacteria* helping keep surfaces clean from disease-causing agents
- Continuously kills viruses & bacteria for up to 5 years*, constantly sanitizing surfaces
- Offers excellent durability, hide, and application characteristics

*Kills 99.9% of bacteria *Staphylococcus aureus* (Staph), *Pseudomonas aeruginosa*, *Enterococcus faecium*, *Klebsiella pneumoniae*, *Acinetobacter baumannii*, *Enterobacter aerogenes*, Methicillin-resistant *Staphylococcus aureus* (MRSA), Vancomycin-resistant enterococci (VRE), *Escherichia Coli* (E. coli), and *Salmonella*, and viruses *Feline Calicivirus* and SARS CoV-2 within 2 hours of exposure to paint surfaces.

**Effective for up to 5 years based on test method "Protocol for the Evaluation of Bactericidal Activity of Antimicrobial Coated Surfaces" (MRID 51062601) as long as the integrity of the surface is maintained and is part of a comprehensive infection control and hygiene program. Cleaning agents typically used to maintain painted surfaces are permissible including multi-purpose, bleach, and peroxide cleaners.

Quaternary ammonium (quats) disinfectants should be avoided.

PPG SPECIALTY SOLUTIONS

PPG ULTRALAST™ INTERIOR PAINT & PRIMER

MAINTAIN A LONG LASTING, FRESHLY-PAINTED LOOK

Time is Money. *PPG ULTRALAST* delivers unmatched washability and stain resistance, protecting your walls from unsightly marks and stains and potentially increasing time between repaint cycles.

PPG SPECIALTY SOLUTIONS

GRAFFITI SAFEWIPES™ REMOVE GRAFFITI WITHOUT FEAR OF DAMAGE

Versatile multi-use product for removing graffiti and other marks from painted and smooth surfaces, these handy wipes are individually sealed, offer unlimited shelf life, and are sized perfectly to always have on hand. Perfect for scuff marks, too!

MULTISPEC® BY RUST-OLEUM BEAUTY THAT LASTS

Multispec offers a line of products – from surface primers, coatings, and clear coats – that can easily update tired, outdated kitchens and baths. Achieve the natural appearance of materials such as granite, cork, leather and stone with decorative paints that consist of flecks of different colors. Ideal for areas such as countertops and backsplashes.

PAINT SCENTSACTIONS® COMBAT ODORS FROM 360°

Eliminate unwanted odors with *Paint Scentsations*, a liquid additive for paint that helps remove odors and freshen up your rooms. Smoke, pet, cooking and other odors will be gone leaving you with great first impressions.

PPG SPECIALTY SOLUTIONS

HOMAX® WALL PATCH QUICKLY FIX DAMAGED WALLS AND CEILINGS

Wall repair is made easy and affordable with our *Homax* Wall Patch products. The galvanized steel and reinforced fiberglass mesh offer outstanding strength for a permanent repair. Heavy-duty and self-adhesive, *Homax* Wall Patch quickly fixes damaged walls and ceilings.

HOMAX® TOUGH AS TILE® REFRESH AND RESTORE INSTEAD OF REPLACE

Our specially formulated *Tough As Tile* finish provides a durable, protective finish that remains beautiful for years. Refinish or re-color your tub, sink or tile, while eliminating the time, hassle and expense of a complete bathroom remodel. Our self-leveling finish refreshes your surface to a smooth, high-gloss look, which breathes new life into your tired tub, sink or tile.

HOMAX® PRO GRADE® AEROSOL TEXTURES EASILY REPLACE DAMAGED WALL TEXTURES

Need to replace wall texture? We've got you covered with our line of *Homax Pro Grade* Aerosol Textures. Available in orange peel, knockdown, and popcorn textures the unique DUAL CONTROL® technology provides pattern and pressure adjustment for improved control.

PPG SPECIALTY SOLUTIONS

PROTECTIVE COATINGS AND PREP SOLUTIONS FOR USE ON METAL AND HIGH PERFORMANCE NEEDS.

DURAPREP®

- Effective Surface Preparation
- Cleaners and degreasers
- Coating removers
- Fast application, effective on many coating types and substrates

PPG MULTIPRIME®

- Quick Dry Universal Primer
- Interior/Exterior rust inhibitive for use on ferrous and galvanized steel and aluminum
- Excellent corrosion resistance
- Can be topcoated with all products - epoxy, urethane, alkyd, and acrylic

PPG PITT-TECH® PLUS EP

- Direct-to-Metal Acrylic Coating
- Flash rust/early rust resistance
- Good abrasion, chemical, and corrosion resistance
- Versatile use on metal, masonry, plaster, and dry wall

AREAS/USES:

Basement, Beams, Café, Concrete/CMU, Door Frames, Hand Rails, Kitchen, Laundry Facilities, Locker Rooms, Mechanical Rooms, Window Frames

PPG SPECIALTY SOLUTIONS

PPG AQUAPON® WB EP

Water-Based Epoxy Technology

Low VOC PPG Aquapon WB EP provides excellent performance in abrasion, chemical, corrosion, and stain resistance and can be used on both vertical and horizontal surfaces.

KEY FEATURES

- Durability of epoxy with low voc and low odor
- Fast recoat times
- Suitable for incidental food contact applications

PPG SPECIALTY SOLUTIONS

CORAFLO® ADS INTERMIX* AN EXCELLENT CHOICE TO RESTORE WEATHERED BUILDING PANELS AND ACCENTS.

Optimal for building restoration and other large-surface applications. Designed to be used on structurally-sound surfaces, including architectural metals, curtain walls, standing seam roofs, aluminum windows, doors, handrails, and stairs.

KEY FEATURES

- Cost-effective alternative to removing and replacing infrastructure
- Exceptional color and gloss retention, maintaining like-new appearance
- Lengthens building life and reduces maintenance costs

*Intended for professional use only.

THE POWER OF COLOR

PPG knows that color is important to your educational facility. That's why PPG offers 2,000+ beautiful paint colors that can be curated and customized for any project. From exciting color palettes to an innovative collection of tools and handy color leave-behinds, the PPG VOICE OF COLOUR™ program makes color selection easier than ever before.

THE POWER OF COLOR: TREND FORECASTING AND RESEARCH

PPG's unique position as a global color leader in multiple industries enables us to observe and translate emerging global color trends for our customers' applications in the consumer goods, industrial, automotive, aerospace, residential and commercial architectural industries. We help our customers to generate and filter color ideas based on cultural, demographic and societal trends. This uncommon approach to color forecasting gives our customers an edge for all of their projects.

HSW

Functional Color in Educational Environments

PROGRAM DESCRIPTION
Functional Color & Design is based on aspects of science that impact the design of commercial facilities. Extensive research into history, philosophy, evidence based design and even the five senses is at the core of the program. Through the research of many color and educational professionals, we highlight contemporary thoughts related to the color-styling of our schools. Design philosophy and specialized studies are included for guidance throughout the educational environment. Educational environments are challenging and fascinating worlds to design. Many factors play important roles in the color-styling process. Capture concepts that will shape your thoughts about these special places in which our children learn. This provides the information you need to create meaningful and impactful solutions.

CONTACT INFORMATION
If you are interested in scheduling this presentation with your firm, chapter meeting, organization or for an event, please contact your local PPG Architectural & Design Representative or email ppgspec@ppg.com. We look forward to sharing our passion for color with you!

LEARNING OBJECTIVES

1. Appreciate the influence of art and stress-relieving qualities that may be attained by incorporating color and design into educational facilities.
2. Discover attributes and nuance of each color palette combined with an understanding of Light-Reflectance Values in the design process.
3. Identify desired color and design goals for specific rooms, areas and grade levels within the educational environment.
4. Understand each age group's responses to color and how it is key in creating an environment stimulating to their educational experience.

FEATURE COLORS

- Public Plant PPG2004
- Protein Blue PPG10425
- Academic Blue PPG1504

THE POWER OF COLOR: PROFESSIONAL COLOR TOOLS

Color and design play a critical role in educational facility management. PPG understands color has the ability to transform a space and bring your design vision to life. Let PPG's global color research and professional tools inform and inspire you to make color selection easier.

CORE FAN DECK

- Featuring all 2,000+ colors, including beautiful neutrals and our Harmony color collection.

PORTABLE DESIGNER KIT

- Sample all 2,000+ colors through 4" x 4" samples housed in a sleek and easy-to-tote, soft carrying case.

PALETTE AT A GLANCE

- Featuring all 2,000+ colors organized by color family in an easy-to-carry, spiral-bound book.

COLOR LIBRARY ARCHITECT BINDER SET

- A set of 7 binders featuring 8" x 8" swatches of all 2,000+ colors.

PPG PAINTS PORTABLE COLOR MATCHING TOOL

- Match wall colors, carpet, tile, fabrics, wallpaper and more to the closest PPG paint color with this small portable device. Ideal for professional painters, interior designers and facility managers.

PPG Paints NIX App

COLOR SWATCH SERVICES TO MEET YOUR NEEDS

- Have complimentary, large 8" x 8" or 4" x 4" color swatches mailed directly to you or your customers.

Order your swatches here: ppgpaints.com/order-swatch

- Order large, 12" x 12" non-damaging, peel and stick color swatches made with real PPG paint.

Order your swatches here: ppgpaints.com/samplize

THE POWER OF COLOR: PROFESSIONAL COLOR SERVICES

Students and their families consider many factors when it comes to selecting an educational institution. The way your campus looks and feels is one of them. The use of the right colors - on trend and of essence - is a key component in generating the right atmosphere.

Our Color & Design Team can provide color research, reports and personal color assistance for any need:

- Professional photo renderings featuring color scheme options at **no cost to you**
- Custom color cards and boards
- Custom accent wall programs
- Personalized color scheme recommendations, including:
 - Interior
 - Exterior
 - Single or multiple unit
 - Geographic color sensitivities
 - Generational color sensitivities

PREVIEWS®

Our interactive *Previews* portal allow customers to apply and view true and accurate color representation to your project before actually painting. Color can be applied, changed and saved in real time and then generated into a PDF for future viewing.
