Assessments

Learning

TOLD-P:5 Test of Language Development – Primary, Fifth Edition

Assesses spoken language in young children (ages 4-0 to 8-11). Can be used to (1) identify children who are significantly below their peers in oral language proficiency, (2) determine their specific strengths and weaknesses in oral language skills, (3) document their progress in remedial programs, and (4) measure oral language in research studies.

Has six core subtests and three supplemental subtests which measure various aspects of oral language. Results of subtests can be combined to form composite scores for the major dimensions of language: semantics and grammar; listening, organizing, and speaking; and overall language ability. Provides access to online scoring and report system.

Complete Kit includes Examiner's Manual, Picture Book, and 25 Examiner Record Booklets, all in a sturdy storage box.

SSI-4: Stuttering Severity Instrument – Fourth Edition

Measures stuttering severity in both children and adults in four areas of speech behavior: (1) frequency (expressed in percent syllables stuttered and converted to scale of 2-18); (2) duration (timed to nearest one tenth of second and converted to scale 2-18); (3) physical concomitants (converted to sales scores of 0-20), and (4) naturalness of individual's speech. Computerized Scoring of the Stuttering Severity (CSSS-2.0) software provided to facilitate calculation of frequency and duration.

Complete Kit includes Examiner's Manual and Picture Plates, 50 Test Record and Frequency Computation Forms, and CSSS 2.0, all in a sturdy storage box.

TELD-4: Test of Early Language Development – Fourth Edition

Measure of spoken language in children ages 3-0 through 7-11. Yields Receptive Language and Expressive Language subtest index scores, as well as a Spoken Language index score. Provides access to optional online scoring and reporting system. Uses brief, simple tasks to assess broad picture of a child's language development, specifically the areas of semantics, syntax, and morphology.

Can be used to: (1) identify language delays (compared to age-related peers), (2) determine a child's strengths and weaknesses in the above language areas, (3) track a child's progress within a remediation program, and (4) research studies.

Complete kit includes Examiner's Manual, Picture Book, 25 Examiner Record Booklets Form A, and 25 Examiner Record Booklets Form B, all in a sturdy storage box.

Kaufman (K-SLP) Treatment Kit 1 - Basic Level

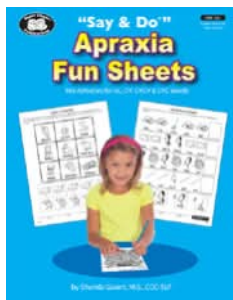

Systematic treatment program trains children to simplify word pronunciation patterns, making it easier for them to communicate. Utilization of this kit also allows the clinician to introduce more complex phoneme patterns as the child’s ability improves, thus maintaining the child’s ability to speak at his or her maximum level. The KSPTK picture stimuli are appropriate to use with children ages 2-6 and can be used with anyone who is having difficulty with articulatory skills in general, with the exception of children with oral-motor weakness or dysarthria. This kit includes a complete manual and 200 pictures of nouns and verbs ordered from simple to complex at the basic level, only including consonants /p, b, m, t, d, n, h/.

..... [74041](#) \$289.99 kit

Kaufman (K-SLP) Treatment Kit 2 - Advanced Level

Targets children who are successful with sounds /p, b, m, t, d, n, h/ but have difficulty with the production, synthesis, or sequencing of words with /k, g, s, sh, k, f/ and consonant blends /s, r, l/. The advanced level cards use familiar 2 and 3 syllable words to target more complicated motor-speech movements and synthesis into initial and final word position. The kit contains a manual and 277 visual referent cards; employs the “word shell” simplification approach.

Language LAB RTI Program

Language LAB is a Response to Intervention (RTI) program for elementary school students (grades K–4) whose English language abilities fall below grade-level standards. This 15-hour (60 or 90 minutes per week), evidence-based program provides Tier II or Tier III language intervention for groups of 2–4 students.

Introduces systematic, research-based instruction to students prior to making a special education referral. The language skills taught are consistent with state educational standards and promote strong reading skills.

Targets verbs (regular and irregular tenses), adverbs, nouns (regular and irregular plurals), adjectives, and connected speech (clauses, conjunctions, negatives, direct and indirect objects). It also includes a Story Station with scripted lessons for teaching narrative skills at three levels: kindergarten, 1–2 grade, and 3–4 grade. Students learn to use basic story grammar components to retell a story, create a story, and add “sparkle” and cohesiveness to the stories they create. During these scripted Story Station lessons, the SLP closely monitors the use of target language skills.

Includes: Resource guide with printable CD-ROM (for all books), homework connections workbook, skill drill workbook, five language LAB station signs, 12 talk aloud cards, six audio CDs with 5000 sentences, 90 story station cards, and five language screener cards.

Reduce the risk of vision loss through fast, accurate, no-contact screening. The Welch Allyn Spot Vision Screener offers innovative technology that can facilitate early detection and treatment of vision disorders, while keeping your students safe and healthy.

EXCLUSIVE PRODUCT

Welch Allyn Spot Vision Screener

Spot Vision Screener is a fast and objective way to detect up to six amblyopic risk factors that may lead to blindness in children or impair a child's vision development. Spot requires minimal user training and captures results automatically when the screening conditions are optimal to effectively screen any child in a matter of seconds, resulting in high test-completion rates.

Myopia

Hyperopia

Astigmatism

Why Spot Vision Screener is Perfect for Schools

- Touch-screen display is easy to operate and intuitive, on-screen instructions guide users through the screening process
- Handheld, point-and-shoot technology captures results 97% of the time¹
- Clinically proven to increase vision intervention rates compared to visual acuity testing alone¹
- Noninvasive, 3-foot working distance requiring minimal cooperation from the child
- Pre-load student lists before a screening day to increase efficiency and then export results via USB or a wireless network
- Immediate on-screen results of both eyes offer either a "Complete Eye Exam Recommended" or "All Measurements in Range" (also lists conditions, if detected)
- Screening result certificate can be printed wirelessly to label or desktop printer to improve follow-up communication

It is important that you always refer to your state or district guidelines regarding vision screening and use of instrument-based tools.

Special Needs Color Vision Screening

Vision & Hearing

Special Education Vision Screening Tool Kit

This kit offers sequential components that allow you to assess the functional vision of children who were previously considered untestable. The sequential screening recommendation starts children with a crowded symbols test and moves them along to other tests if they cannot participate in the first test.

..... [1006595](#) \$429.99 kit

Includes:

LEA SYMBOLS® Crowded Symbol Book, 10 Foot

Designed for screening children who find other charts challenging. Child identifies middle optotype only. Because of the crowding effect, it often allows measurement of line acuity of young children much earlier than the visual acuity charts and thus helps in detecting amblyopia or impaired vision early.

LEA SYMBOLS® Single Symbol Book

Designed for screening children and adults who have difficulties in perception of symbols in lines.

Hiding Heidi Low-Contrast Test

Determining the levels of detectable contrast helps provide baseline data for evaluating future changes. For example, deviations from usual behavior may indicate disorders that leave vision at high-contrast levels unaffected.

LEA SYMBOLS® Flash Cards, 10 Foot

Designed for testing distance visual acuity in children and adults who have difficulty with visual acuity charts, the Crowded Symbol Book Test, or the Single Symbol Book Test.

LEA SYMBOLS® Puzzle 3D

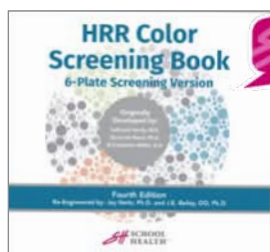

Can be used in circle time to familiarize children with shapes prior to screening.

Sunflower Occluder

Flip-up sunflowers to permit occlusion of each eye. Recommended for children 3 years to 6 years old.

Parrot Frosted Occluder

Two frosted glasses, one to occlude each eye. Can be used until the age of 10 years.

A. School Health HRR Color Vision Screening Book

This quick School Health exclusive test screens for protan/deutan (red/green) and tritan (blue/yellow) color vision deficiencies for children and adolescents beginning at age 3 years. This color vision deficiency book uses a simple pass/refer format, does not provide diagnostic information, and should not be used for career decisions. The screening book uses color plates from the gold standard HRR (Hardy, Rand, and Rittler) Standard Pseudoisochromatic Test, 4th Edition. Includes user-friendly instructions, 2 demonstration plates to show how the test works, 4 screening plates, a scoring sheet, tabbed sections, and protective coating on each test page.

School Health is committed to delivering the best products at the best value!*

All School Health products are competitively priced and our price matching policy guarantees we will match a price in a competitor's catalog from the same published year, for identical items and quantities.

It is easy to make sure you are getting the best price.

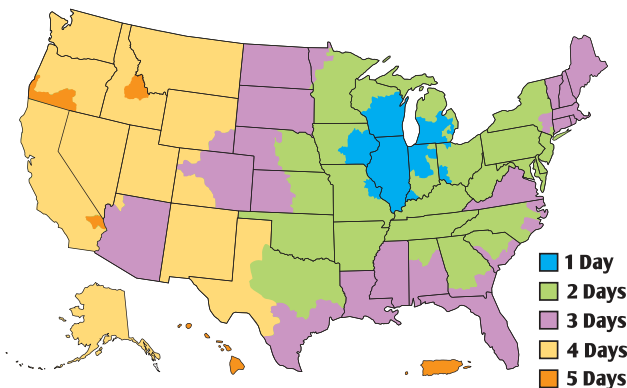

If you spot a price that is lower than the School Health listed price, capture it so you can share it with us.

Send the information you found to us and receive your Price Match Guarantee!

* Clearance prices do not qualify, discounts cannot exceed manufacturer's unilateral minimum price where applicable and all price guarantee adjustments are completed at the time of purchase. Customer must provide proof of pricing (including, but not limited to, copy of price from competitive catalog, website, or bid received by customer).

This information is intended for general guidance only. Scheduled delivery days are revised from time to time as changes in weather, technology, distribution, and volume occur. Service to some remote residential areas may require additional delivery days.

SATISFACTION GUARANTEE POLICY

It is our promise that School Health Corporation will do everything possible to ensure that our customers are completely satisfied with our products and services. If you are not satisfied for any reason, simply call our Customer Care Center at 866-323-5465, or send an email to: customerservice@schoolhealth.com.

- If you are not satisfied, Rob Rogers, President of School Health Corporation asks that you send him an email to: president@schoolhealth.com, or fax him at 800-235-1305.
- If goods are damaged upon arrival, please mark the shipper's document "received damaged," sign it, keep a copy for your records and call our Customer Care Center and the shipping company immediately, as time limits for claims may apply.
- UPS shipments with visual damage should be refused.
- Freight carrier shipments with visual damage should be noted on the carrier's freight bill "received damaged" and that portion of the delivery should be refused.
- Some colors and finishes may differ slightly from our catalog representation; color swatches are available at no charge upon request.
- Returns or exchanges may result in a restocking fee. Please contact our Customer Care Center if you have any questions.

WARRANTY POLICY

All items sold in this catalog are backed by their manufacturer's warranties and a one-year limited School Health warranty that is applied to all of our products. For further information, contact our Customer Care Center at 866-323-5465 or email us at: customerservice@schoolhealth.com.

Free shipping on orders of \$125 or more in the continental United States for Standard UPS Ground or tailgate truck (Elevated Doc required or hand load off trailer). For subtotals less than \$125, the shipping charge is \$12.95.

Shipping Information for the Continental U.S.

Order Value	Applied Charges
Under \$125	\$12.95
\$125+	Free Shipping

Fast Shipping: Do you need your product shipped same day? Most in-stock products with a rush request can be shipped same day if orders are received prior to 2:00 p.m. CT Monday through Friday. Restrictions may apply for large orders and/or seasonal times of the year. Normal order requests from our warehouse will ship 1-2 days after order is received. Drop ship items direct from our vendors may take longer and have extended lead times for special orders. Please contact our customer care department for order specifics.

Elevated Loading Dock: For freight orders, if your delivery location does not have an elevated loading dock, your order can be shipped out via lift-gate-equipped truck (to lower the product from truck to ground), and a \$75.00 lift-gate charge will be added to your order.

Express Delivery or Special Services: Please contact our customer service department for expedited delivery, special delivery requests and freight quotes. Call Customer Service for a quote: 866-323-5465

Items shipped to Alaska & Hawaii: Small parcel shipment costs to Alaska and Hawaii are 18% of the merchandise sub-total. Please contact us for shipping and processing costs for freight items.

International Locations: Please contact us for shipping and processing costs for small parcel or freight items.

Shipping Charges: Purchases made through the School Health Corporation website, or catalog, are shipped prepaid with transportation charges added to the invoice. All shipments, including school or institutional, unless otherwise noted, are F.O.B. Rolling Meadows, Illinois. When you do not specify the mode of shipping, our policy is to ship the least expensive way. For more information see SchoolHealth.com/terms-and-conditions.
