Welcome to Smith System

We design and build furniture exclusively for learning environments. Every piece is optimized to account for how students work, learn, think and fidget across every age and stage. From the beginning, we work alongside you to create the best spaces imaginable for teaching and learning — school by school, classroom by classroom.

Sierra High School
Tollhouse, California

Design + Innovation

We're at our best when we're collaborating with schools, design firms, architects and furniture dealers across the country. Doing that work every day — talking curriculum and taking notes on how students learn — is the only way we know. We have a product design team who are experts in their fields to bring new products and insights to life.

Performance

We often describe the way we work as 'on-time' because there's no other way to describe how we work. Frankly, we believe there is no other way to work. Our business is highly seasonal, and when classes start up, we make sure our furniture is ready to go. It's taken a lot of learning and diligence to get to where we are today. Our customers keep returning, happily, to remind us that 'on-time' is the only way to be.

Quality + Value

The demand on schools to provide creative and inspiring learning environments for today's students is high. We help schools and districts meet that demand with furniture that is built for making, exploring, studying and collaborating. We make furniture that is built for learning. This simple credo drives the way we design, manufacture, assemble and deliver our products, so that our customers can get high-quality furniture at a price every district can afford.

Built for Learning

Learning is not a one-size-fits-all thing. The same goes for the furniture that supports it. We've seen how the right tools can help spark inspiration for teachers and students. Because of this, we've never strayed from our focus.

We don't make educational furniture as part of what we do. It's the only thing we do.

Find insights and inspiration

We've carefully assembled an online library of information to help you hone your knowledge and stimulate your imagination. It's the natural result when we have really passionate people with over a century of experience to share

What we offer educators.

Innovative Design

Beautiful furniture designed to create comfortable, healthy and engaging learning environments.

Exceptional Customer Care

An attentive sales force, available Monday - Friday 7:30 am - 5:00 pm CST, for support and the best customer service in the industry.

Durable

Seating, desks, tables and storage units that stand up to decades of wear and tear from students (and their backpacks).

On-Time Shipping

Orders made fresh to your specs and shipped without delay — even during peak season.

Customization

An impressive palette of color options for laminate tops, edges, paint and chair shells. Boost school spirit, stay subdued or go bold.

Modern Thinking

Product lines that connect students to modern curricula and current research on how kids learn best.

Value

A wise investment in quality furniture that has become the brand of choice for many of the largest school districts in the U.S. and abroad.

Environmental Health

Our entire indoor product portfolio is 100% certified to meet indoor air-quality standards for children and schools through UL GREENGUARD with the exception of butcher block.

Great Warranty

We offer a limited lifetime warranty. Find out more at www.smithsystem.com/about-us/warranty.

That's what our customers love most.

What's New in 2026?

More innovative solutions to create the flexible, future-ready spaces that teachers and students want. No matter the education destination, our new products pave the way for modern learning. See what's on the horizon.

View what's new

New for 2026

Flowform[®] Modular Seating

Flowform Modular Seating brings flexibility, comfort, and thoughtful design into today's learning environments. Like the popular Flowform Learn Lounge Seating, it features soft ergonomic contours that naturally support a comfortable yet alert posture – ideal for helping students stay engaged during lessons. Casters on two-feet make each piece easy to move, using a simple wheelbarrow-style motion.

Flowform® Modular Seating

Tailor soft-seating configurations to nearly any lesson and environment with seats, benches and ottomans that stand alone or link together. Flowform® Modular Seating offers radical versatility for creating dynamic shared-learning hubs.

SEE PAGE 66

New for 2026

Innovative learning solutions.

Cascade® Mobile Teacher Workstation

Nomadic teaching has become the norm. We designed a portable, practical homebase to keep on-the-go staff organized when moving between environments.

SEE PAGE 200

CTE Stool

Built with industrial-grade durability, the Career and Technical Education stool is ready for the demands of skills-based learning.

SEE PAGE 74

Constellate™ Group Table

Students crave more mature furniture. These mobile group tables deliver an elevated aesthetic to libraries, learning commons and other shared spaces.

SEE PAGE 104

Learning Spaces:

Trends we see in education.

Our singular focus on furniture allows us to stay on top of emerging trends for new and unique spaces. As curriculum and technology evolve, we quickly adapt with furniture that fills real needs and meets the demands of modern learning. From esports studios to outdoor environments, one thing remains true: creativity and flexibility are at the forefront of design.

Esports

Video games have grown up out of the basement. Today, the esports industry is pacing a new generation of inspired students and is creating more opportunities to students at all levels.

Outdoor Learning

Natural learning environments have proven to engage kids and spur creativity unlike any other. Connecting learning to the landscapes around us can be beneficial to everyone.

VR Labs

Virtual reality remains at the cutting edge of learning and educational opportunities. A dedicated VR space can quickly transport students to far away worlds and unique learning experiences.

In-Between Spaces

Hallways are no longer just for walking. Those overlooked school spaces could provide the perfect setting for personal study, small group collaboration or even larger group meetings.

Makerspaces

Some call it this. Some call it STEM or STEAM. Either way, it's an incubator for problem solving, creativity and collaboration. It must remain a highly versatile hotbed of engaging zoned spaces, materials and tools.

Cafeterias

K–12 cafeterias are more than dining areas—they're central hubs where students refuel, connect, and build community throughout the day. Flexible, durable furniture helps schools create welcoming spaces that support everything from meals to group work and social gatherings.

Learning Commons

A successful learning commons is a subtly energizing environment where students can engage in a diverse array of learning activities. It's a place where kids migrate to between class and after school – it's a place where kids want to be.

UDL Spaces

Universal Design for Learning, or UDL, is one of the biggest factors shaping the intentional design of modern K–12 classrooms today. In short, it's a framework for teaching and learning that treats students' varied physical, intellectual and learning needs as the norm. Creating "expert learners," is a matter of changing the design of the environment (removing barriers) rather changing the learner.

CTE

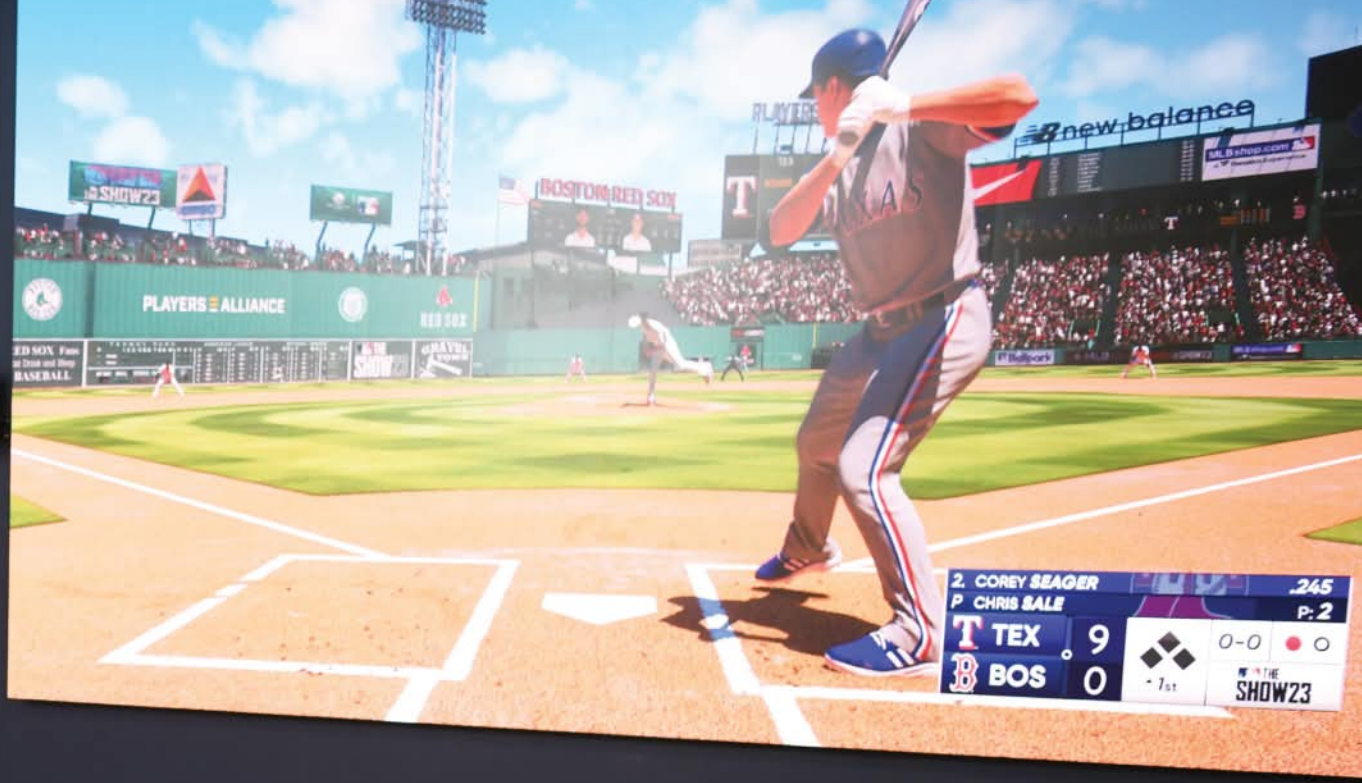

Career and Technical Education (CTE) are hands-on spaces where students build real-world skills in areas such as agriculture, education, culinary arts, and manufacturing. Furniture plays a crucial role by supporting varied activities—from teamwork to individual tasks, and accommodating specialized equipment.

Esports: Merging Passion with Learning

The meteoric rise in high school esports shows it's much more than child's play. Esports has blossomed into a hot topic of conversation because it promotes socialization, teamwork, critical thinking skills, communication, and so much more, spanning from K-12 to higher ed.

Learning Interiors Showroom
Chelmsford, Massachusetts

Outdoor Learning: The Counter to Nature- Deficit Disorder

Miles of blue sky and green trees? Not necessarily. Studies show it doesn't take much nature to combat nature-deficit disorder in students. Teachers can now transport the sphere of rigorous learning from the confines of their classrooms to the school grounds—and beyond.

VR Labs:

Creating New Realities for Real-World Applications

Imagine a student so viscerally immersed in learning that it's dizzying. That's the power of using virtual reality in the classroom, and it's capturing the attention of K–12 educators.

In-Between Spaces: Breathing Life Into Overlooked Areas

A generation ago, school hallways were loud, cavernous corridors for corralling students. Today, those hallways have become valuable informal learning spots, reinforcing that learning can happen everywhere — even in the most unlikely places.

Forsyth Country Day School
Lewisville, North Carolina

Scott M. Leaman Elementary School
Lincoln, California

Makerspaces: Cool Labs for Hands-On Creating

Every student has maker potential. An educator's role is to manifest the maker mindset. That requires creating irresistible school makerspaces — incubators that get students excited to collaborate, think, tinker, design and build tangible products that solve real-world problems.

Cafeterias: Invite Connection and Community

A great café is more than a place to eat—it's a social hub where students recharge, connect, and build relationships. Smith System® designs café spaces with durable, student-friendly furniture that balances comfort, flow, and function. From flexible seating zones to high-traffic tables built to last, our solutions help schools create welcoming environments that support community, well-being, and everyday learning moments.

Learning Commons: Transforming Open Space

Successful learning commons are a subtly energizing environment where students can engage in a diverse array of learning activities. It's a place where kids migrate to between class and after school – it's a place where kids want to be.

Universal Design for Learning: Empowering Every Learner

Every student is different, this is the norm, not the exemption. UDL - inspired classroom spaces are intentionally designed to accommodate all learners.

for 20-30 MIN.

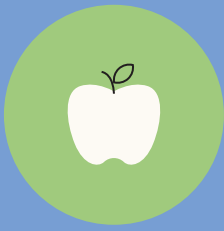

CTE Spaces: Built for Real-World Learning

Career and Technical Education thrives when environments work as hard as the students in them. Smith System® designs CTE spaces with durable, flexible furniture that supports hands-on learning, collaboration, and the transition from classroom to career.

Grade Levels:

All ages and stages.

Our commitment to creating optimal learning environments is exemplified in our grade-level furniture designed to meet the unique needs of students at every stage of their educational journey. Whether it's fostering creativity in elementary classrooms, encouraging collaboration in middle school spaces, or supporting focused learning in high schools, Smith System furniture is crafted with precision and care.

Early Childhood

For every child, the first days are the most important. Aim to create the kind of environment that welcomes the child, stimulates learning and facilitates learning through play.

Elementary

Elementary school is a time of colossal academic and development growth. Successful Kindergarten–grade 5 environments evolve with these students, as they learn, think, work and fidget across every age and stage.

Middle School

In middle school, students shoulder more responsibility for their education. Successful grade 6–8 environments prepare them with increased opportunities to problem-solve, collaborate and experiment – under adult supervision.

High School

High school is about progressively preparing for life after graduation. Successful grade 9–12 environments lead students to deeper learning, critical thinking, and discovering their strengths in relation to others.

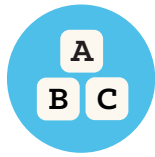

Higher Education

During college or technical school, a student's future sharpens into focus. Successful higher-ed environments foster the critical thinking, team collaboration and problem-solving that employers will want.

Learning Interiors Showroom
Chelmsford, Massachusetts

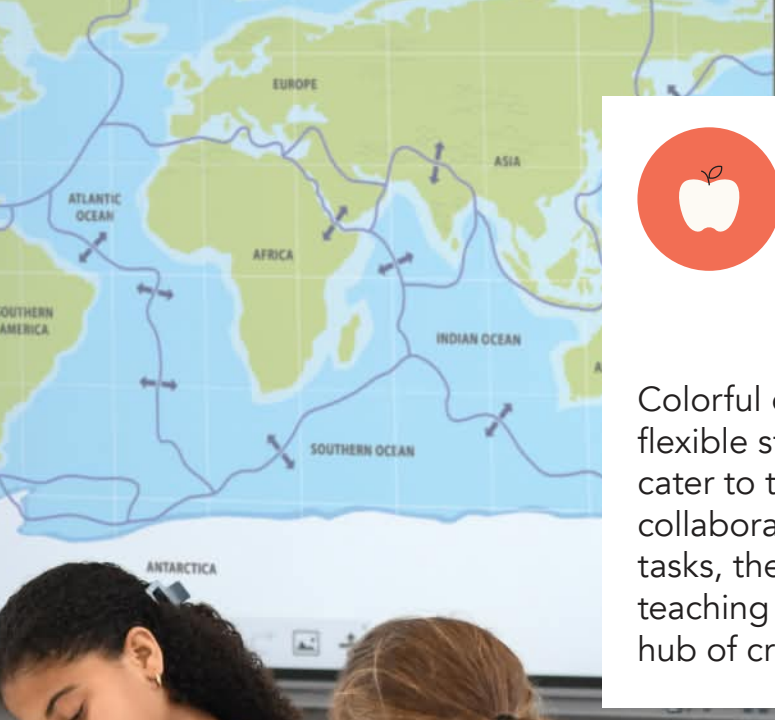

Early Childhood: Tailored to Young Children

In the enchanting world of preschool, learning unfolds through play, exploration, and imagination. We understand the importance of cultivating an environment that sparks curiosity and nurtures the budding minds of our youngest learners.

Learning Interiors Showroom
Chelmsford, Massachusetts

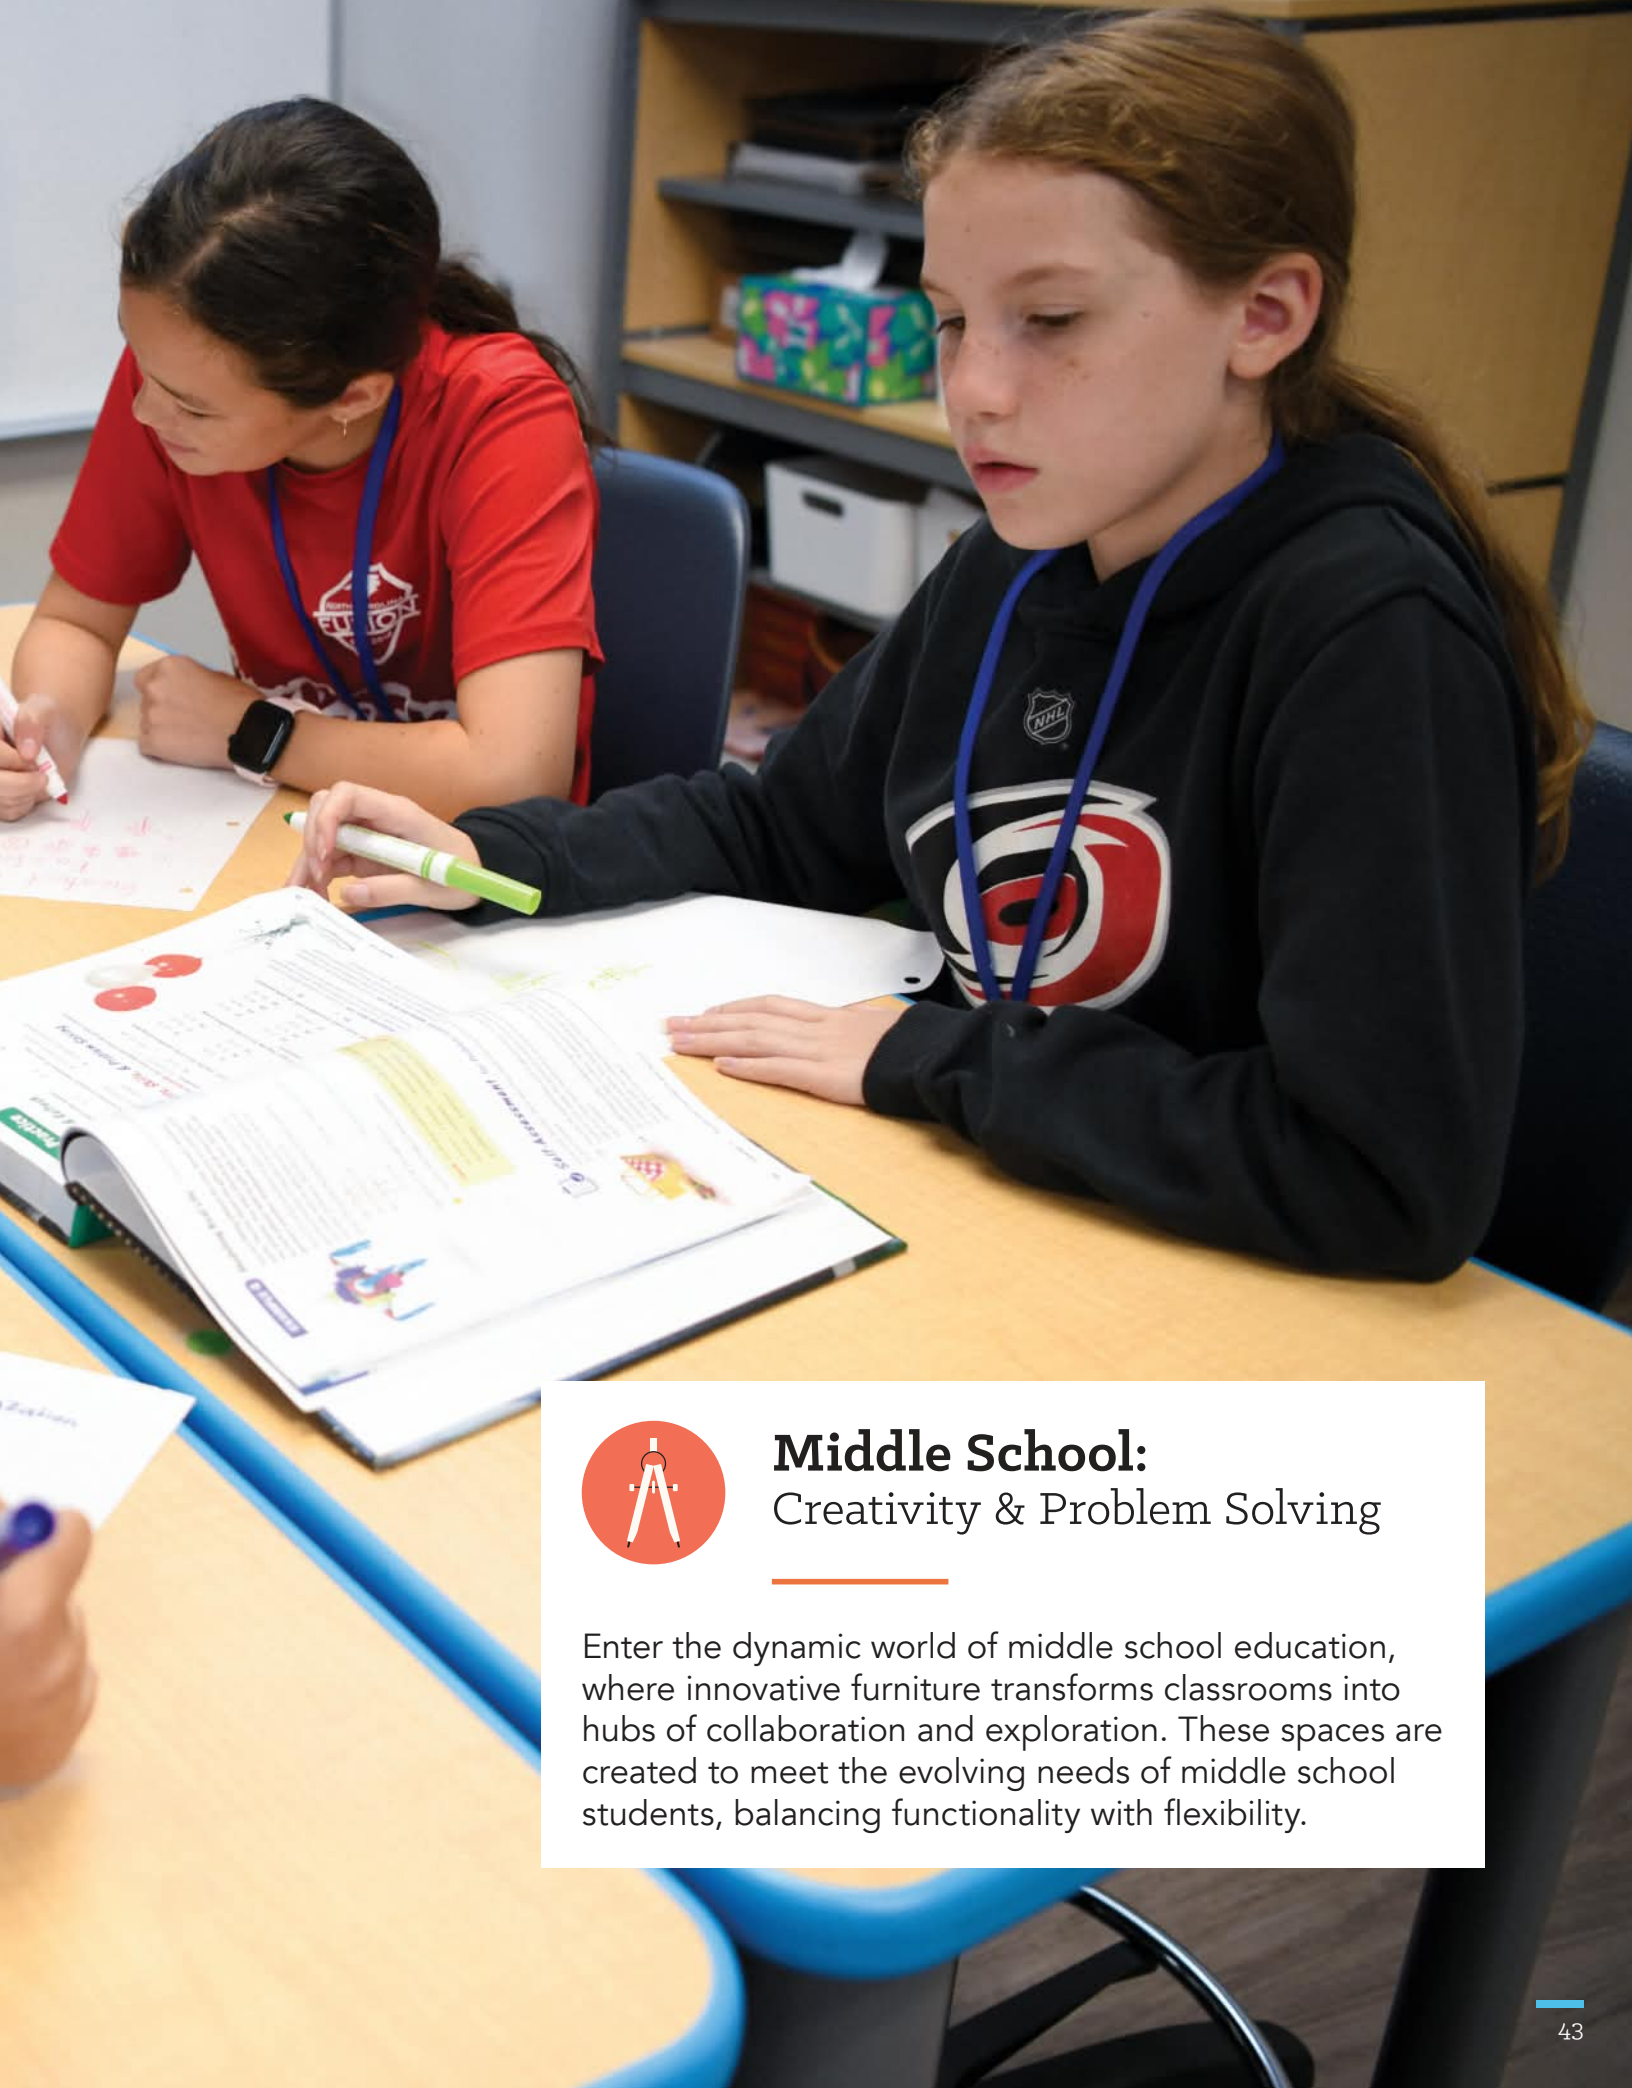

Elementary: Hands-on Opportunities for Meaningful Learnings

Colorful ergonomic seating, interactive desks, and flexible storage solutions are meticulously crafted to cater to the dynamic needs of young learners. From collaborative group activities to focused individual tasks, these environments support a variety of teaching styles, ensuring that every classroom is a hub of creativity and exploration.

Forsyth Country Day School
Lewisville, North Carolina

Middle School: Creativity & Problem Solving

Enter the dynamic world of middle school education, where innovative furniture transforms classrooms into hubs of collaboration and exploration. These spaces are created to meet the evolving needs of middle school students, balancing functionality with flexibility.

High School: Discovery & Critical Thinking

High School environments feature zones crafted to support focused study, collaboration, and independent learning, recognizing the diverse academic pursuits of students. From ergonomic seating conducive to long study sessions to versatile workspaces that adapt to various subjects, empower students to take charge of their education.

Learning Interiors Showroom
Chelmsford, Massachusetts

Higher Education: Critical Thinking, Collaboration & Problem Solving

The environments require a delicate balance between innovation and tradition, as these spaces are integral to shaping the learning experiences of students. From the architectural layout of spaces to the incorporation of advanced technology in classrooms, the design of higher education environments plays a crucial role in fostering creativity, collaboration, and adaptability.

Which ergonomics
matter most?

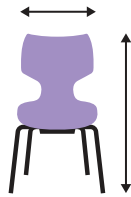

BAAM Academic Center
Easton, Maryland

Beyond design, consider how it's engineered and built

Here are some ways administrators can get the most ergonomic bang for their buck.

Right Fit/Adjustable

- Both seating and desks need to be properly scaled to fit the size of the individual student.
- We offer a wide range of heights in seating.
- Our desking lines are adjustable in height as well.

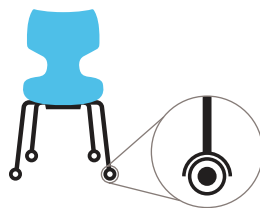

Right Size

- Properly sized classroom seating supports healthy posture and decreases distracting fidgeting.
- Students should be able to sit with their feet firmly planted on the floor and their backs against their chairs.

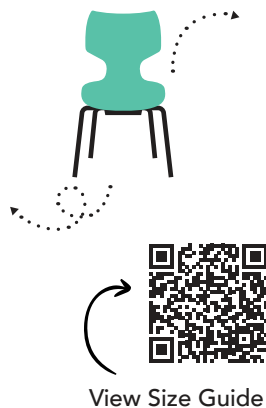

Function

- 21st century learning often requires seating to be moved throughout the day, so chairs must be light enough, or fitted with casters, to allow students of all ages to move them quickly and easily.

Seating that Doesn't Fight the Student

- Consider our Graduated Movement Concept, an idea educators can use to tailor the ergonomics of the classroom furniture to support the curriculum. Though subtle differences in design, our Groove, Flavors and Numbers lines allow moderate movement while Oodle, Flavors & Groove Noodle permit the utmost movement.

Right Size

Fitting the chair and desk or table to the student is important, as a proper fit helps academic performance while a poor fit hinders it.

Healthy Construction

Smith System desks and tables are made for healthy learning environments, and are UL GREENGUARD Gold Certified with the exception of butcher block.

Suggested Desk and Chair Heights:

Table Height	~16"	~19"	~22"	~24"	~27"	~29"
Chair Seat Height	8"	10"	12"	14"	16"	18"
1-2 year olds	✓	✓				
3 year olds		✓	✓			
PreK-4 year olds			✓			
Kindergarten				✓		
Grade 1				✓		
Grade 2				✓	✓	
Grade 3-4					✓	
Grade 5						✓
Grade 6-12						✓

Dependability

Smith System backs its tables and desks with a lifetime warranty on the frame and legs and a 12-year warranty on table tops and desk tops.

Availability

Smith System employs lean manufacturing techniques, allowing us to make tables and desks to order and ship them directly from our factory.

Seating

Seating is as unique as a fingerprint. Students sit in thousands of different positions — upright, backwards, twisted and tilted. They stretch out their legs, sit on them, cross them and bounce them. They will balance on their chair or teeter on the back, tempting gravity — and common sense.

Built for Learning.

Learning has evolved. Seating has adapted.

Like all of our furniture, our seating concepts were developed for early childhood - 12 students. From their very specific size ranges to their innovative contours — these seating options are ready for learning in any environment or situation.

Flavors® Seating

Ben Martin Elementary
Fayetteville, North Carolina

Freedom of movement

Flavors seating eliminates as many restrictions to student movement as possible. A relatively flat seatpan with a waterfall front allows the student to comfortably face front, back and either side.

Less restricting to the shoulders and spine

To further enable the student to work with students on either side, the seatback provides torsional flex — allowing the student to gently twist to face left or right.

Move, breathe and concentrate

A subtle front-to-back flex allows the student to move and adjust their posture, which promotes better concentration.

For classrooms that move and students of all sizes

Flavors seating is light enough for most students to move in the classroom without a problem. Achieve additional mobility with casters on the Adjustable Chair, Adjustable Stools and Mobile Stacking Chair. Stacking models come in six sizes, so you can pair the appropriately sized chair with the student.

Built for the demands of a school environment

The durable, high-density polypropylene shell stands up to the challenges of a real-world classroom. The frame is protected with chrome plating or a rugged powder coat finish. For added strength, the shell rests directly on the frame (not on the rivets).

Glide Guide Tip

Nylon Glides are best used on carpet, carpet squares and properly treated VCT flooring.

Felt Glides are recommended for hard surfaces such as VCT tile, LVT tile, concrete and hardwood floors.

Steel Glides would be best on carpet.

Design forward

Soft to the touch, Flowform seating adds a new level of comfort and flexibility to more spaces. Built for collaborative groups of all sizes or solo study, the Flowform line adds a softer feel without sacrificing durability or maneuverability.

Soften your space

Flowform seating has a soft touch and ample cushion for lasting comfort in multiple positions. Underneath it all sits a reinforced frame for long-lasting strength.

Create and collaborate

Easily rearrange Flowform seating in limitless configurations for collaboration of all shapes and sizes.

Built to last

The highly durable and cleanable vinyl fabric suits classrooms of all ages and easily wipes down at the end of the day.

Flowform® Learn Lounge Seating

Sierra High School
Tollhouse, California

Engaged learning (not leaning) postures.

Flowform Learn Lounge helps schools curate the next generation of relaxed learning areas anywhere on campus. Intended for preschool and for grades 3–12, Flowform Learn Lounge individual pieces work as a system to bring ergonomic comfort to all learning spaces and create a sense of temporary ownership.

Collaborative combinations

Versatility and user adaptability are hallmarks of Flowform Learn Lounge. The multi-functional pieces are easy to push into place. Students can flow between “me” and “we” spaces, creating unlimited furniture match-ups. Plus, there’s enough surface space to spread out digital devices, analog tools and personal items.

Variety and freedom of choice

Student wellbeing is paramount. Flowform Learn Lounge empowers students to customize spaces for academic and social learning. They can choose where and how to sit, with extra visual and acoustical privacy. Optional built-in power accessories are within reach, too, to keep devices charged and ready.

Reduced distance between table and user

← 103° optimal back angle for ergonomic sit

Flowform® Modular Seating

Custom comfort for
focused learning.

Flowform® Modular Seating

Go figure, reconfigure, repeat

Flowform Modular Seating lets schools customize their upholstered-seating configurations to nearly any lesson. Durable vinyl seats, benches and ottomans come in a variety of shapes, each with straight edges and dual casters for easy reconfiguration.

Two ergonomic height options

Engaged learning begins with a healthy learning posture. Flowform Modular Seating offers an inclusive solution: 15-inch-height for preK–grade 3 and 18-inch-height for older students.

Built to last. Easy to clean

Each modular piece is made from safe, durable materials, including vinyl fabric that's easy to sanitize.

Dual casters for easy reconfiguration.

Get into the groove.

Flex you can feel

Groove is designed with a “flex” seat surface. The gentle contour and slightly higher upper-back shell spread the student’s weight over a larger surface area. The slim waist design and strong lumbar support allow kids to sit comfortably and maintain good posture.

Streamlined aesthetic

High-tech injection molding not only keeps the seatback strong and flexible, but it eliminates the exposed structural “ribs” on the back of the chair’s shell. We also used a smaller tube diameter for the frame. Groove doesn’t look like an institutional classroom chair. It’s sleek and calm, yet familiar. It’s a crossover chair that quietly blends in anywhere: classrooms, cafeterias, flex studios, makerspaces and more.

Three-position ergonomics

Kids are creative sitters. The ergonomic seatpan and subtle shell contours support movement in a working posture at a desk and sideways sitting. A gentle flex at the top of the shell opens the contours up for a reclining position. Groove also features a generous waterfall seat front to support circulation to students’ legs and feet.

Modern manufacturing

For Groove, we used a modern injection molding technique for the polypropylene shell. This means the plastic is left thicker for more strength in high-stress spots, and thinner for less-stress areas. The result means more flex and less chair weight without sacrificing strength.

Sit, read,
relax & learn.

Soft landing

This cush-for-the-tush, in either round or square, provides a soft spot for students to sit, read, relax and learn. It's a great addition to a variety of learning environments, from floors to built-in risers. Cluster different colors and shapes to up the fun factor.

Designed to last

Count on these cushions to keep their shape through extended use. We used extremely durable (and cleanable) Denier Nylon on the outside and firm 2-inch foam on inside.

Easy to handle

A looped handle makes it easy to cart cushions or reposition them. The mobile Isle Floor Cushion Cart makes quick work of stacking cushions to tidy up or transport them to another space.

Calculated
for success.

Calculated for universal appeal

Numbers chair provides a value-driven, high-quality solution for early childhood – grade 12 classrooms around the world. The shell is designed with comfort and durability in mind as we fully integrated the frame into the shell. And, it's our first product line to meet international BIFMA, EN and GB requirements for size, safety conformance and durability.

1-2-3 global markets

We designed Numbers with a winning formula that meets classroom furniture standards of three major world markets—EMEA (Europe, the Middle East and Africa), Asia-Pacific and the Americas.

Comfortable blow-molded shell

Blow-molding lets us add shell volume, then nestle the frame in the seatpan. A molded undershell provides added strength, especially for sitters who favor leaning back. The integrated aesthetic is easy to clean, too.

Soften

Oodles of possibilities

Often our pursuit of designs that inspire the minds of students takes us to places we never would have imagined even five or ten years ago. Oodle is an active seating line that is as fun to explore as it is to say.

Switch it up

Keep your space fresh by switching things up in a flash. You're never stuck with one height or one color. And the unique rocker base system maximizes versatility. Sit flat, or sit with movement, on the very same stool.

Moving up

The colorful 6.5-inch sections stack and twist to engage a unique stool-to-stool locking system. Educators can easily assist students to make the stool taller or shorter.

Holding up

Oodle's 17-inch diameter is perfect for all ages and sizes of student. Sturdy polypropylene material holds up to all elements.

Soft sit

Add Oodle Soft to any Oodle to allow for a softer sit in any learning environment. Covered in easy to clean Designtex vinyl.

Endless
potential.

Popular choice.

Students innately clamor for the stool spots first. Give them more options with the Potential Backless Stool. It's a cost-effective choice for durable seating in a full line of fixed and adjustable heights on glides or casters.

Inclusive sizing.

Choose from five fixed-height models and four adjustable-height models, including a 22-inch option that creates eye-level collaboration between wheelchair users and nonwheelchair users working at ADA-compliant tables.

Versatile & comfortable.

A generous seat pan with slight waterfall front, sides and rear ridge provides ergonomic comfort and molded support for a slight saddle-like sit.

A compact stack.

The fixed-height legs are designed for convenient slide-on stacking. Users can simply raise and nest stools together, rather than lifting them high overhead. Stack up to five high.

Single Base Pedestal Café Tables Meeting

Unique spaces for sharing ideas.

Plug in, recharge and collaborate

Café Tables are a popular choice for creating casual meeting areas in commons, libraries and classrooms. Students can gather and collaborate in a more laid back atmosphere.

Single base meeting tables

Start by choosing (1) a top, (2) then choose from five heights: 42" Standing Height, 40" Working Height, 36" K-8 Standing Height, 29" Sitting Height or 16" Coffee Height. Next, choose from Circular or Crisscross base styles. 42", 40" and 36" Standing Height models offer Backpack hooks, standard. (3) Choose optional power for the top, power cord runs out bottom of base. 1 1/4" thick top available in all standard finishes. Bases available in Platinum or Black.

Collaboration
begins right here.

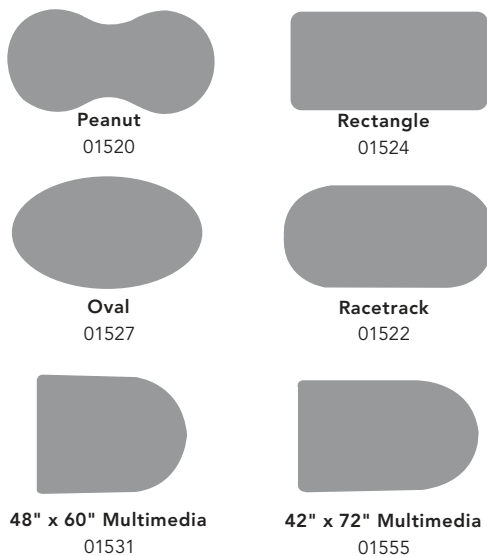

More options for collaborative and distance learning

Curriculum is always evolving. More often students are working in collaborative groups. Additionally, more and more students are participating in “distance learning,” receiving lectures or instruction via video from teachers located away from the classroom. These methods for learning require new resources, created expressly to facilitate their instruction. The wide variety of Smith System meeting tables addresses both traditional and emerging needs (with special attention paid to connectivity) identified for classrooms, labs and commons areas.

Double base meeting tables

Designed to accommodate up to six people, these tables with sleek contemporary looks can be used for small group work, distance learning or admin areas. They also offer the option of integrated power and USB connectivity, conveniently located on the work surfaces. Choose (1) a top, (2) then choose from five heights: 42” Standing Height, 40” Working Height, 36” K-8 Standing Height, 29” Sitting Height or 16” Coffee Height. Next, choose from Circular or Crisscross base styles. 42”, 40” and 36” Standing Height models offer Backpack hooks, standard. (3) Choose optional power for the top, power cord runs out bottom of base. 1 1/4” thick top available in all standard finishes. Double Cafe tables use two bases.

Top and Edge Options:

Collaboration at the center

Designed to bring people together, Constellate® Group Tables create a natural hub for collaboration and community. Integrated power is available as an accessory, making it easy to support digital tools when and where learning requires.

Mobile and durable

Convenient wheelbarrow-style casters make it easy to configure tables for group work, presentations or individual learning. Quality materials and solid construction ensure long life. Customize the scratch-resistant surface with an array of laminate colors.

Sized for student-centered learning

We created Constellate Group Tables for student-centered learning. Choose from two generous surface sizes that seat anywhere from 4–6 people and two height options. Either way, these tables will become destination hubs for active, collaborative group work.

Elemental® Tables

Elemental simplicity

The Elemental table line has its own variety of fun shapes. Choose from stars, trapezoids, squares, moons, sprockets and yin-yang to create a one-of-a-kind collaborative space.

A surface with a depth of possibilities

The Elemental line is a great surface to be certain. Customize your shape with a full selection of adjustable legs and casters for a fun and modern upgrade to your space. And as with every product from Smith System, Elemental tables are built to stand up to any classroom activity or experiment.

Let your colors fly

Now, every facet of the Elemental line is another opportunity to demonstrate school pride or just add some variety to your classroom color scheme. Mix and match surfaces, legs and casters for a limitless mix of fun and funky possibilities.

Surface Options (with matching 3mm edge band):

Our Flowform
tables really go
with the flow.

360 degree effectiveness

Unique shapes and rounded edges invite more movement around the table for easier access and mobility among students at every level.

Scale up or down

In collaboration with Flowform seating, Flowform tables reconfigure in countless ways, from large-group collaboration down to individual study.

Professional grade

A fresh approach to surface structure and leg design provides more durability and a quality you appreciate immediately.

Flowform Learn Lounge Screens on page 268.

Designed for comfort and ergonomic support

Students love lounge furniture, but it can have ergonomic and stay-on-task drawbacks. Flowform Learn Lounge offers a corrective solution through intelligent design. It provides casual, collaborative furniture pieces that work in unison to ergonomically support students – and promote better, healthier learning in common spaces.

Collaborative combinations

Versatility and user adaptability are hallmarks of Flowform Learn Lounge. The multi-functional pieces are easy to push into place. Students can flow between “me” and “we” spaces, creating unlimited furniture match-ups. Plus, there’s enough surface space to spread out digital devices, analog tools and personal items.

Casual learning work surfaces

Casual learning spots are notorious for lacking work surfaces. That forces students to hover over their laps or the floor. Learn Lounge eliminates that. The table and ottoman curves work with the seating curves, so students feel connected, but not claustrophobic. The soft shapes welcome students from any direction; a streamlined base maximizes leg room.

Collaborative learning

The Foresight line features a variety of fun shapes. Mix up collaborative spaces with stars, trapezoids, squares, moons, sprockets and crescent designs.

Inclusive for all ages

The Foresight line is available in a 15.6-24.6”H leg and a 21.4-30.4”H leg that will work from pre kindergarten all the way to higher ed learners. Foresight’s vibrant and engaging surface sparks creativity and encourages interactive learning experiences.

Budget-friendly

Embrace the future of education with this affordable and adaptable activity table, designed to cultivate a dynamic and engaging classroom environment. This thoughtfully crafted table combines durability with functionality, providing an ideal solution for dynamic and collaborative educational environments.

Interchange® Activity Tables

Tables in different
shapes & surfaces.

Collaborative learning

Designed for collaborative learning, Interchange Activity Tables provide sleek looks and solid functionality for both individual and group learning.

Wildly versatile

The highly versatile Interchange line of contemporary classroom desks and tables features legs that easily adjust from 22 to 34 inches in height. Choose from many shapes, all of unbeatable engineering and beauty.

Unbeatable construction

The T-Mold edge band, used on Interchange Desks and Tables, is secured every 6 inches to provide superior fastening power. The work surfaces are high-pressure laminate that stand up to heavy use. Structural Framing – steel reinforcing beams attached to each leg – adding rigidity and preventing wobbly legs. Don't settle for Easy On Brackets for tables and desks in collaborative learning classrooms.

Interchange High Range Inserts

Model 77158

With adjustability from 30 - 42 inches in height. Adjust in 1" increments with a single hex screw per leg.

COMPATIBILITY & USE GUIDELINES

- Not for use on 20" depth tables.
- Not for use on tables or desks with 3 legs (i.e. Interchange Diamond or Wing Student Desks).
- Not for use on Interchange Squiggle 60", Model #04154.
- OK for use on Interchange 2-Student Diamond Desk, Model #03081
- OK for use on Interchange 3-2-1 LS Student Desk, Model #03011 only (not 3-2-1 #03002).
- 24" depth tables OK on glides only, no casters - ***MAX ADJUSTABILITY 36" HEIGHT***
- 30" depth, 36" depth, 42" depth and 48" depth OK for use with casters or glides.
- Designed for use with our Multimedia tables with 30", 36", 42" and 48" depths (ok for use with casters or glides).

Large Monitor Table Mount

Model 17354

For 32 - 50 inches monitors. Accommodates VESA mounting 100mm x 100mm to 400mm x 200mm. 100 lb. weight limit.

A benchmark in comfort,
strength, and design.

The perfect pairing

To complete the Numbers equation, we designed its companion: the versatile Numbers Desk. Together, the chair and desk set equals a smart solution for students, teachers and facility personnel.

Adjustable height & casters

These desks can quickly be adjusted in height and have discreet set screws which are inside the legs allowing for smooth legs. Standard inserts range from 24.5 to 30 inches; low-range inserts are 19 to 24.5 inches. The High Range Desk Table adjusts from 27" - 42" in 17.5 mm increments. In addition, the inner leg tube can flip between glides or casters (sold separately), which allows for wheelbarrowing without affecting desk height.

Slide-on stacking

To conserve space, the desks have a compact design. Their leg form, coupled with felt-bottomed backpack hooks on all four legs, allows easy slide-on stacking — up to four desks at a time. The laminate top is 1.25 inches thick in North America; 25 mm for Europe and Asia.

Numbers Chair line featured on page 80.

Numbers™ Student Desks and Tables

Sierra High School
Tollhouse, California

www.smithsystem.com | 800.328.1061

Calculated for a comfortable & inspiring classroom experience —anywhere in the world.

Planner® Student Desks

Ben Martin Elementary
Fayetteville, North Carolina

Stable foundation

What sets Planner desks and tables apart is their rock-solid bases.

- Steel legs, one at each corner, welded to two steel cross members at each corner.
- Heavy gauge steel modesty panel bolted to each leg across the front.

Unbeatable construction

T-Mold edge bands on Planner desks and tables are stapled every 6 inches to provide superior fastening power. The work surfaces are high-pressure laminate that stand up to heavy use.

For collaborative learning or traditional classrooms

Numerous top shapes provide tremendous durability in collaborative and traditional learning classrooms.

Surface Options (with matching 3mm edge band):

Messages in motion

The Planner Studio Whiteboard perfectly complements our Planner Studio line of tables to create a unique and creative environment for today's learners. It provides a sophisticated looking two-sided laminated writing surface and includes a small shelf located on both sides to hold markers and erasers.

For collaborative learning or traditional classrooms

The Planner Studio Whiteboard is ideal for all kinds of classroom activities. The heavy duty construction contributes to a sturdy work surface.

Quality

The frame consists of two fully welded leg segments made from 14-gauge steel.

Contemporary,
Economic Solution.

Stable

The Silhouette desk is a contemporary, economic solution for all classrooms. Its durable cantilevered design, adjustable legs and optional storage accessories make it a timeless favorite. Single and two-student options are available.

Strong

It provides a notably strong surface that can withstand heavy loads and daily wear. A practical backpack peg is standard. Optional accessories include steel book box, wire book basket and Cascade® Storage tote trays.

Stunning

Sometimes, elegant simplicity is all you need in a student desk. That's where Silhouette shines.

A practical backpack peg is standard.

for outdoor learning.

Learning comes naturally

Humans crave connecting with the great outdoors. Studies show the biggest benefits occur when we bring students into nature. Even the smallest amounts of “Vitamin N” matter.

Built to last nature's wrath

Flowform Outdoor furniture is designed and built to withstand years of rough weather and extended use:

- Strong, yet light-weight, internal framing structure safely supports larger students.
- For stability, Flowform Outdoor should be bolted and secured to a man-made surface.

Cleanable

Sunbrella® Elements fabric is stain-, fade-, and weather-resistant, and easy to clean with soap and water.

Flowform® Outdoor Tables

Built tough for everyday
outdoor use.

Flowform Outdoor Tables

These organic shapes and rounded edges invite more movement around the table for easier access and mobility among students at every level. Pair with our Flowform Outdoor Soft Seating to create individual zones for student engagement and learning outdoors.

Outside classroom activities

There's a lot of science connecting overall student well-being and exposure to nature; it's good on multiple levels.

Built to last nature's wrath

Flowform Outdoor Tables are designed and built to withstand years of weather and extended use. Table consists of steel legs and Fundermax top for durability.

Cascade® Teacher Desks

Transmitting knowledge

The teacher's role has evolved from transmitting knowledge and maintaining order to facilitating learning and managing learning materials.

Maintaining order

Teacher's equipment has evolved. Developed for the 21st Century learning environments, the Cascade Teacher Desks make use of Cascade Totes that can be transferred directly to Cascade Storage Units and properly equipped student desks. This allows the teacher's desk to be the central hub in managing projects and learning materials.

Stable, mobile workspace

The Cascade Teacher Desk offers a stable, mobile and versatile workspace, integrated wire manager and modesty panel and great ingress/egress plus the unique capabilities of Cascade Storage, a scalable solution for organization, storage and distribution of learning materials. Locate the pedestal on the left or right side for a single cabinet desk or two pedestals for a double cabinet desk; its drawers are Cascade Totes. 1.25" top with Bumper T-Mold. Choose from 20 standard laminate colors and 8 standard edge colors. Platinum or Black frame.

Surface Options (with matching 3mm edge band):

Made for motion.
Built for teaching.

Cascade® Mobile Teacher Workstation

Navigate to the need

Floating educators between shared spaces is becoming common practice. It requires flexible solutions to reduce the physical and mental strain on nomadic teachers, admin and support staff. The Cascade Mobile Teacher Workstation is a portable, practical homebase that helps adults stay organized, confident and in charge.

Compact footprint

Nimbleness defines this contemporary workstation. Its compact 28-inch-width can clear the 30-inch doorframes found in older schools. The workstation also features a walk-in design on one side. It's easy to simply push and temporarily plant the desk in place.

Sit-to-stand height

We added sit-to-stand height options to let users decide their preference. They can quickly move between 29.75 to 44.87 inches, based on comfort, content and crowd. The optional PET modesty panels slide to standing height for added privacy.

Motum® Teacher Desk & Mobile Lectern

Mobility, versatility, storage in one

Flexible classrooms require teachers – and their tools – to be on the move. Motum Teacher Desk and Mobile Lectern offers mobility in a contemporary design that preserves practical storage features. The result is a nimble necessity with aesthetic appeal across the education continuum. Motum makes a sleek office desk, too.

The mobility story

Teacher desks are personal basecamps, but they need to work in flexible classrooms. Using a wheelbarrow-type motion (glides on one side, lockable casters on the other), teachers can move their workstation almost anywhere.

Customize your station

We started with a stationary desk made from Smith System's rugged steel frame and high-density board. Then we added popular options to customize.

1. Select size.

Choose from two desk sizes, three different end pedestals, and a right-or left-hand configuration – 12 models in all.

2. Pick an end pedestal.

Under-desk storage keeps materials tidy and secure. Pair either size desk with one of three, fixed end-pedestals with lockable front panel.

3. Finalize the finish.

Platinum finish is standard for frame. Choose from 14 standard laminate colors for top and sides. It's easy to match with Smith System's student tables and desks.

Cascade Maker Table

The Cascade Maker Table combines up time and down time in one convenient system. The broad surface and ample storage help you re-imagine the ease and efficiency of your Makerspace in a simple, mobile all-in-one unit.

- 1.25" work surface or 1.75" butcher block work surface.
- Optional doors with secure and reliable locking mechanism.
- Fully hinged doors articulate 270 degrees, free of obstruction.
- 18-gauge steel construction, formed and welded to support the entire weight of the unit squarely.
- Standard with pegboard end panels.

Model 25300H

Maker Table is 36" in height and features a 48" x 48" worksurface.

Cascade® Whiteboard

Available on any Mega-Tower or Mega-Cabinet Unit.

Optional Whiteboard Back

To specify a whiteboard back to any Cascade Mega-Tower or Mega-Cabinet simply add a "W" to the 4th position in its model number. See below examples.

Model	Description	D"	W"	H"	WT.

Cascade Two-Sided Whiteboard Unit

Smith System is helping educators maximize their shrinking learning environments by offering the Cascade Two-Sided Whiteboard Unit. This versatile, nomadic workhorse replaces the traditional single-purpose whiteboard with a dual-purpose mobile whiteboard plus storage. Key features include magnetic writing surfaces on the front and back of a storage unit which houses customizable, extra-wide totes. The classroom just became more flexible than ever. Available in Platinum only.

Cascade® Cubby

Cubby Mega-Tower

Cubby Mega-Cabinet

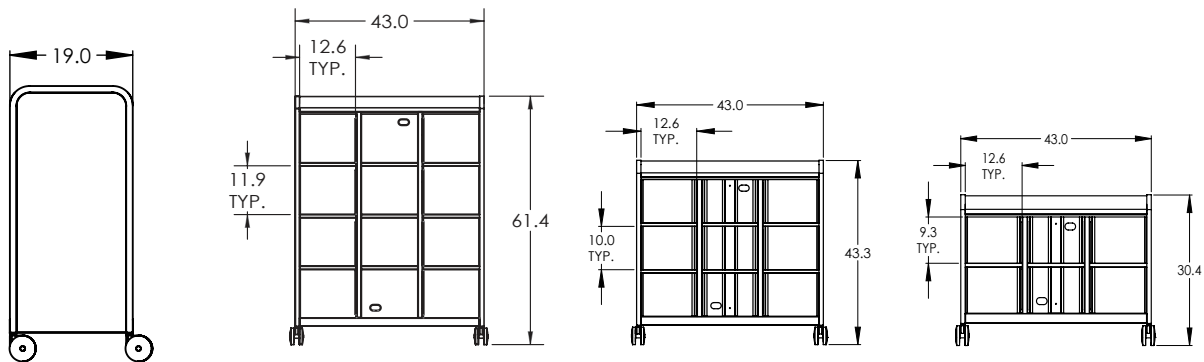

Cubby Mega-Case

Cascade Cubby

These versatile storage units feature large cubbies for organizing classroom materials to backpacks of all sizes. They offer the additional benefit of mobility thanks to their 4" or 5" dual-wheel casters. Lockable doors are available as an option, as is a Whiteboard on the Cubby Mega-Tower.

Cascade Cubbies are flexible, scalable, comprehensive solutions for organization, storage and distribution of materials within the school. No matter the use in the classroom, the Cascade cubby units are designed to hold up with extended use.

- All-steel cabinet rolls on dual-wheel casters: 4" casters for Mega-Case; 5" casters for Mega-Tower and Mega-Cabinet
- Whiteboard back available on Mega-Tower and Mega-Cabinet. Upcharge applies.

Constellate™ Storage System – Classroom

Modular storage units that stack up – or expand out.

Space is always at a premium in schools. Constellate Laminated Storage helps districts maximize square footage. Using versatile modular units with the ability to configure & reconfigure means teachers can adapt their storage to their changing needs. It's a clever classroom organizational unit for all grades, early childhood through grade 12.

Constellate™ Storage System – Classroom

Grow vertically: stackable classroom storage.

Model CLBBA

Constellate classroom storage delivers ultimate functionality and versatility. Units are 20 inches deep and can stand alone or be stacked vertically (except for 32-inch-wide bookstand) to conserve space. If needs change, a conversion kit can convert the stacked units to stand-alone units. A stack kit can also convert two stand-alone units to a stacked unit.

Model 55022

Biophilic design.

These airy designs bring the restorative power of nature inside to help improve students' cognitive function and overall well-being. Immerse students and teachers in the healing power of biophilic design.

Choose from leafy varieties.

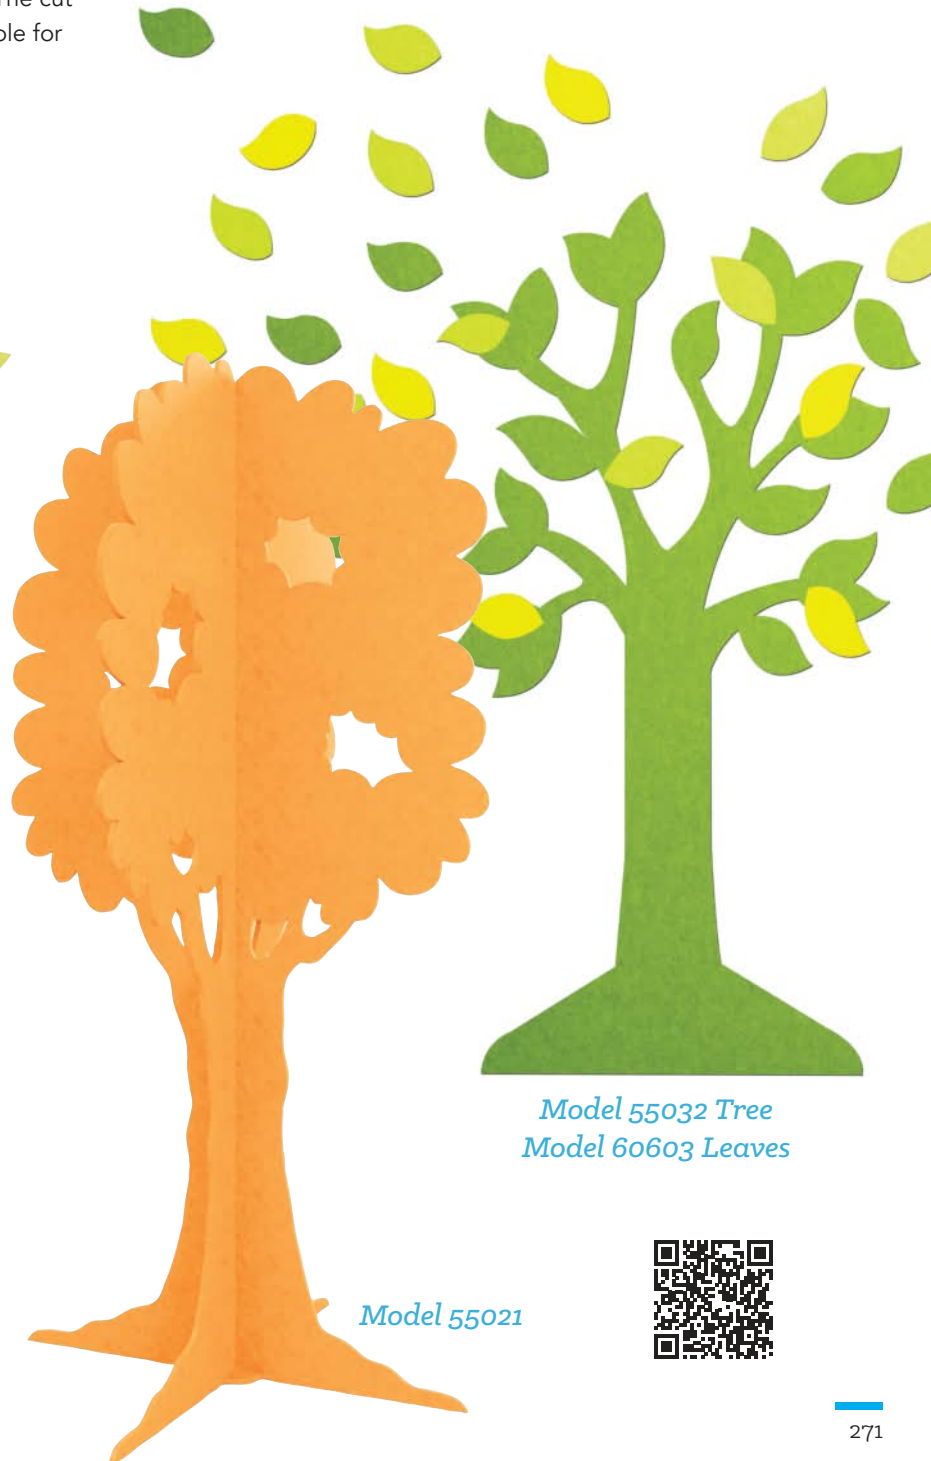

Each is crafted from sustainable, sound-dampening PET felt. The trees can stand alone, attached to wall or be grouped to create an immersive canopy. The cut panels are easy to move, assemble and disassemble for compact storing.

Dramatic play for dramatic learning.

These colorful, pre-cut PET panels help kids explore their favorite pretend scenarios. Each design fosters social and emotional skills, problem-solving ability, and new vocabulary.

Choose from 18 playful designs.

Yup, we went a little overboard. Flowform Play includes 15 different themed screens (with side supports) and a trio of three-dimensional options: a rocketship, puppet theater and market. All are easy to assemble and move.

Color outside the lines.

Color can have an effect on mood, emotion and productivity, which ultimately influences student success. While there is no one-size-fits-all approach to the use of color, consider letting the purpose of the room guide the color scheme selection. With a little bit of thought and planning — and access to the right furniture company — finding furniture that meets the color needs of any space can be done with ease.

See website for application and availability.

Request a sample kit.

Go online or ask your Smith System dealer to request a sample kit. The kit includes edge molding color samples, laminate top samples, seating color chips and all the other necessary pieces to select your school's furnishings.

Design resources.

Smith System furniture is available on all popular specification software, including:

- Project Matrix
- Revit Files
- 2D/3D CAD Files

Standard laminates.

All 20 of the standard laminates are -60 finish. When a Wilsonart Laminate code includes "Y," "K," "-12," "-78" or "AEON," these are special laminates with an upcharge, even when it contains a "-60" or "-38."

Standard edge profiles.

Available in .75" and 1.25" thicknesses, Smith System tables and desktops give you the option of lending the tops of the room a light or substantial feel. Similarly, our edge band treatments give the choice of curved, bullet or bumper edges.

Laminate options.

Want to specify a different laminate? No problem. If you have 20 or more tops of the same color Wilsonart Laminate with finishes -60 or -38 there is no upcharge. Have 20 or less or want to specify a different laminate brand? We will quote the job for you, just provide the laminate code and finish style.

Power Options

ADD POWER

This symbol indicates you can add power to select tables.

You will find the “ADD POWER” logo throughout this catalog. It signifies which Smith System tables are compatible with our power units.

When ordering, please submit a drawing with your order to indicate the desired positioning of the power unit on the work surface. All power accessories are special order, a custom feature per table and are non-returnable. For more information call 800.328.1061.

Customer Service, Ordering, Terms and Freight.

PURCHASE ORDERS

Be sure to include: 1. Quantity 2. Model Number 3. Description 4. Color Choice (top, edge, frame color for tables, and shell and frame color for chairs) 5. Price for each item, including quote number. Scan QR code for complete details, or visit our website: https://smithsystem.com/po_checklist/

Smith System accepts orders via:
- email: smithfax@smithsystem.com
- fax: 972.398.4051

Cancellation or modification of orders must be submitted to Smith System in writing. In some cases a cancellation fee may be charged if raw materials, work in progress or special products are involved. All tops are made to order.

PRICES

All prices are ex works; Carrollton (zip code 75006), Texas. Prices are subject to change without notice. Freight charges for shipments are prepaid and added to the invoice.

For delivered pricing or delivered and installed pricing, Smith System produces a price book based on shipping zone.

TERMS

Invoice terms for credit accounts are NET 30 days. Orders are invoiced on day of shipment. New customers and international customers are cash in advance.

Smith System accepts school purchase orders and credit cards. Credit cards are accepted for first order only at standard discount. Smith System accepts Visa, MasterCard or American Express.

QUICK SHIP/SHIPPING LEAD TIMES

There are 20 Quick Ship laminate colors, 6 chair shell colors and 8 bumper edge colors. Frame color availability is specified on the catalog page. Quick Ship lead

time for 40 bumper edge tables and 40 chairs is 5 business days plus transit time, though this may extend during the busy summer season. Please call for specific availability. If the product components are in stock, they will ship as soon as possible. Non-Quick Ship lead time is 8 to 12 weeks from the time of your order, and may extend to 16 to 20 weeks for non-standard product. Call Smith System with questions.

Shipping date is confirmed by acknowledgement 24-48 hours after receipt of purchase order. Every attempt will be made to meet that shipping date. However, it is subject to change without prior notification. Smith System reserves the right to discontinue products and change product specifications and prices. We do not pay for split shipments.

DELIVERY

Shipments are sent prepaid with charges added to the invoice. Product shipping weights are for product only. LTL shipments are sent on pallets. Pallet weights will be added to total weight for LTL shipments. Standard LTL shipments do not include inside delivery. Inside delivery is available. Inside delivery requests need to be on the order and appropriate freight charges will be added. Some products can ship FedEx. For orders that ship FedEx, inside delivery is included in freight charges. Smith System will determine the mode, method and carrier which meet the best delivery criteria.

FREIGHT

Do not refuse freight because of damage or shortage. All merchandise is packed to comply with carrier requirements. For your protection all shipments should be carefully inspected by the consignee before acceptance. The delivering carrier should be requested to record on the delivery receipt any damage to goods or cartons at time of delivery. Also, any shortages should be noted on the delivery receipt. If further damage is found after delivery, immediate inspection by the delivering carrier must be requested. The delivering carrier must be notified at once of concealed damage. All cartons and merchandise must be held for inspection.

Carrier liability ceases after 10 days (5 days for YRC).

Smith System will assist customers at all times to obtain claim settlement, but the consignee must take the necessary steps to obtain the proof of loss and damages. If customer selects freight carrier, customer is responsible for any freight damage claims. NOTE: Carriers are not responsible for damage or shortage after the delivery receipt is signed without a damage or shortage notification.

Smith System delivers to all 48 continental states. All orders delivering to other states and international locations are ex works Carrollton (zip code 75006), Texas. International freight quotes are available upon request and do not include taxes, duties, or customs brokerage.

CHARGE BACKS

The tare weights and dimensions listed are estimated; therefore Smith System will not be responsible for freight costs associated with these variances. LTL Shipments go on pallets, weights vary.

RETURNS

All products are made to order and are not returnable. Initiation of a returnable item must begin within 14 days of delivery. Smith System will be unable to accept an item not reported within this time period. No goods will be accepted for return without prior authorization. Agreed returns will be subject to 30% restocking charge, plus any return carrier charges. Any unpacked, used or assembled item will not be considered for return.

WARRANTY

Smith System has a Limited Lifetime Warranty. Scan QR code for complete details, or visit our website: <https://smithsystem.com/about-us/warranty/>

Smith System indoor furniture is 100% UL Greenguard Gold Certified For Children and Schools CertifiedSM on our complete product line with the exception of butcher block.
