

Security by Xerox

A new standard of eXceptional Vigilance across the workplace.

PRINT / MANAGED PRINT SERVICES / IT SOLUTIONS / DIGITAL SERVICES

Today's threats don't wait. Neither should your protection.

From misdirected emails to unsecured endpoints, modern attacks exploit the everyday. Our security solutions protect every layer of your IT, print and document environment — quietly, constantly, and automatically. It replaces siloed vendors, outdated processes, and reactive security measures with one trusted partner.

Backed by industry-leading protections, we deliver end-to-end security — without slowing you down.

PROACTIVE BY DESIGN

Our security solutions offer an integrated defense system that protects your endpoints, data, and workflows — before threats become disasters.

A security solution that is:

- Proactive, not reactive
- Embedded into everything we offer
- Designed to keep pace with the evolving threat landscape

BUILT DIFFERENTLY. TO PROTECT BETTER.

- **Built-in:** Protection embedded into devices, workflows, and services from day one.
- **Unified:** One approach spanning print, IT, and digital — with no weak links.
- **Proven:** Backed by Zero Trust architecture and acknowledged as a leader in security.¹

\$4.4M*

Cost of average
breach in the U.S.

\$1.26M**

Avg. cost of a
print-related data loss.

Organizations managing multi-vendor fleets.

WE STAND GUARD, SO YOU DON'T HAVE TO.

While other vendors offer dashboards and detection, we offer something simpler: peace of mind.

- One trusted partner
- One end-to-end security solution
- One less thing for your IT team to manage

PROTECTION YOU CAN COUNT ON. CONFIDENCE YOU CAN FEEL.

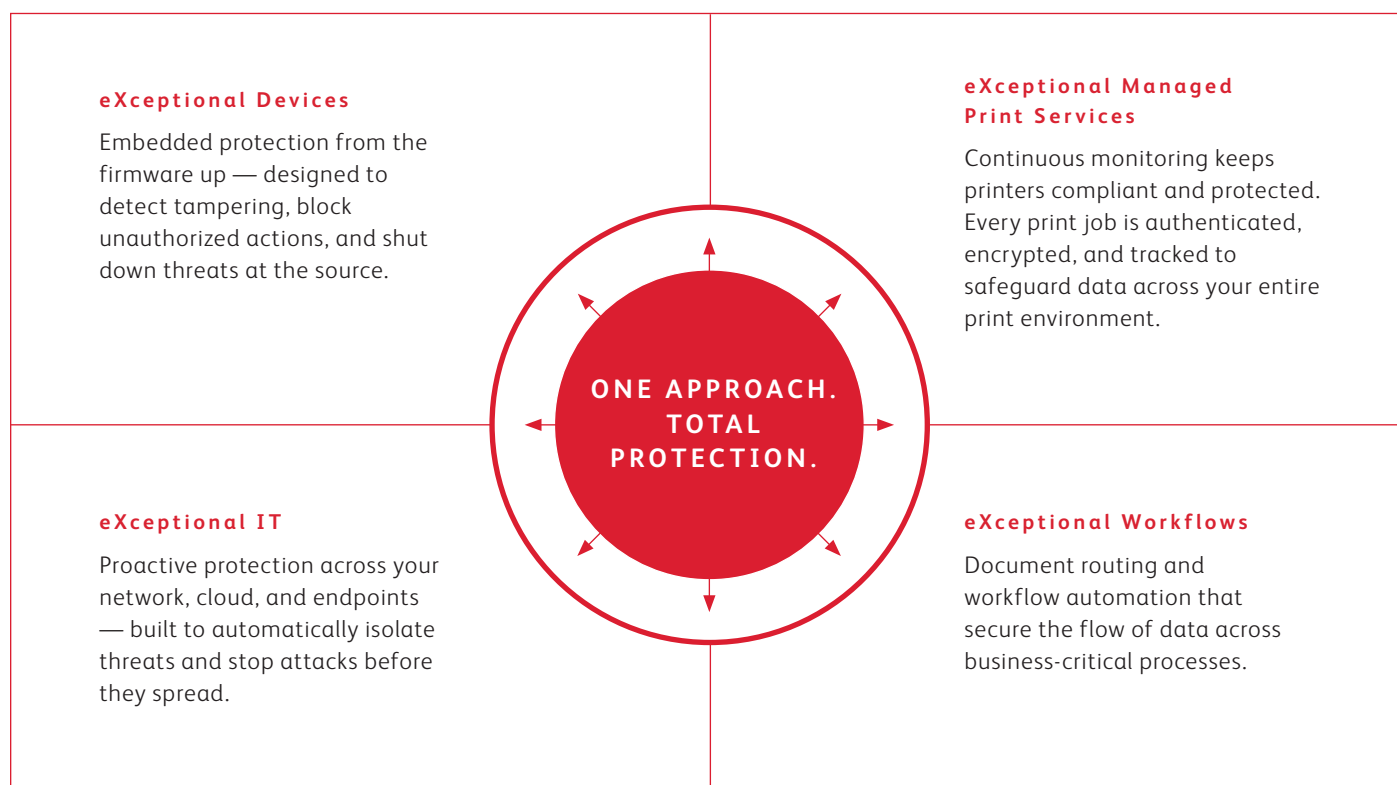

We don't just promise protection - we deliver it across every layer of your ecosystem.

- Always on
- Real-time threat containment
- No operational slowdown

An ecosystem that sets a new security standard. Our security solutions defend with eXceptional Vigilance.

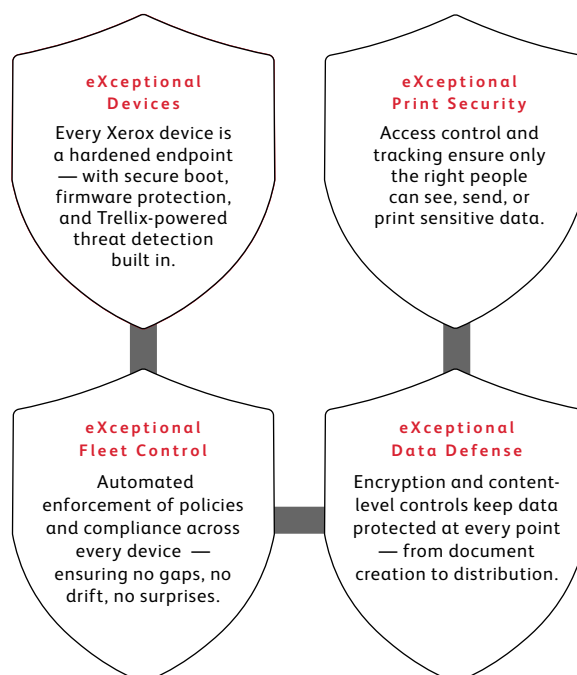

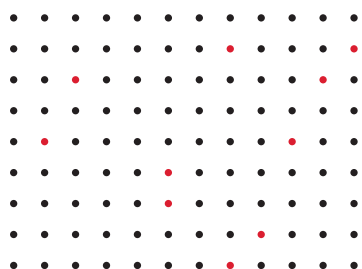

Security isn't just a feature—it's a foundation. Across devices, networks, and digital workflows we build in intelligent defenses that work together to block threats—before they disrupt your business.

eXceptional Print Protection

Built to block what others miss.

Four layers of defense.
One integrated ecosystem.

Proven in the field. Certified at the highest level.

Our security solutions are trusted across organizations of all sizes and industries — including government, healthcare, finance, and education.

We meet and exceed regulatory and industry security standards:

- FedRAMP / GovRAMP
- GDPR
- ISO 27001 / ISO90001 / SOC 2
- Acknowledged as a leader in security¹

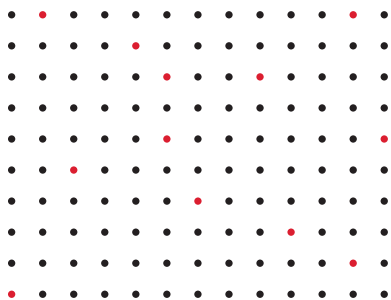

These certifications don't just check a box — they reflect our deep, ongoing commitment to keeping your endpoints, data, and workflows protected in real time, without manual oversight.

Whether you're securing a single site or a global infrastructure, we deliver protection that scales with confidence.

READY TO PROTECT MORE THAN JUST PRINTERS?

Let's build a security strategy that protects what others miss. We can help you secure:

- Your endpoints
- Your workflows
- Your data
- Your future

CERTIFIED TO PROTECT WHAT MATTERS.

Our end-to-end security provides total peace of mind. From secure firmware to automated policy enforcement and protected document workflows, every layer of our security is engineered to meet real-world threats and real-world standards.

No gaps. No weak links. No surprises.
