Great
for CCD
Classes!

Our Texas-based palm supplier adheres to a high standard of environmental stewardship and social responsibility. This 3rd generation family-owned business has been in operation for almost 70 years and knows this business well. They personally own over 500 acres of palm trees in South Texas!

In 2004, they donated 322 acres of virgin native brushland in South Texas as permanently protected wildlife habitat. This provides a permanent safe haven for migratory birds and local animals!

Leaves are stripped, counted, graded, and bagged all within the US - unlike most of our competition. This provides hundreds of important jobs to one of the poorest counties in the United States bordering Mexico.
